In 2021, Texas 2036 brought its data-driven, research-informed, non-partisan approach to Texas state policy, offering research, interactive data tools, and viable solutions for how the state might address complex and long-term issues facing Texas. Texas 2036 provided unique data insights, research, and possible solutions to key challenges in education, workforce, health, digital infrastructure, and government performance. Texas 2036 staff supplied data, policy research and insights about opportunities to support Texans' long-term prosperity and quality of life. Texas 2036 continued to develop coalitions to build support for solutions to real and pressing needs. These coalitions include Digital Texas, which is focused on expanding access to high-speed broadband, and Aim Hire Texas, a statewide consortium of advocates, employers, non-profit organizations, and education and training providers working to improve the Texas workforce system for the benefit of all Texans and their employers. Texas 2036 also developed and initiated a number of projects to continue to build fact bases, data analyses, research summaries, reports, and other resources aligned with various goals of Texas 2036's Strategic Framework for the future of Texas that have been, or will be, made available to the public to help Texans, and their policy makers, better understand and contemplate solutions for the many challenges that Texas continues to face.

**4b** (Code: ) (Expenses \$ **573,088** including grants of \$ ) (Revenue \$ )

Texas 2036 continued to provide data tools and reports to ensure that Texans have access to quality, meaningful data to inform decision-making. Texas 2036 also continued, released or began work on a variety of health-oriented interactive data features, including 1) our COVID-19 Tracker, displaying both health and economic data relevant to understanding the impact of the pandemic; 2) the Health Coverage Policy Explorer, which allowed users to see the estimated impact of various policy options on coverage rates, federal funding access, and state expenditures in real time, 3) the Health Evaluation of Life Phases report which allows users to explore critical health issues facing Texans across life stages and the clinical and policy implications of these challenges, and 4) the collection, analysis, and reporting of hospital pricing data which will be released in 2022. Texas 2036 commissioned and supported various research projects that focused on developing unique data insights, including two statewide voter polls, an update of a previous report on the likelihood of various extreme weather events occurring in Texas in the coming decades, and modeling of the potential impact of global oil price and production volatility on state revenues designated for public education. Texas 2036 began a multi-year effort to improve the collection and application of workforce data in Texas. The first product released from this effort is the Aim Hire Texas Regional Workforce Data Tool, which provides data on statewide and regional workforce trends and projections. Additional products from this workstream are expected to be released in 2022 and beyond. Also for release in 2022, Texas 2036 began the development of an interactive website that models the impacts of proposed changes to the funding system for the state's two-year community college systems. The development of this simulator is aligned to convening of the Texas Commission on Community College Finance and is intended to support commission members and stakeholders as they consider the potential impacts of various proposed revisions to the current system.

**4c** (Code: ) (Expenses \$ **1,168,345** including grants of \$ ) (Revenue \$ )

Texas 2036 believes it is critical for Texans across the state to know the challenges that our state faces, both now and into the future, and to understand the role that state policy plays in addressing those challenges and ensuring all Texans have the opportunity to flourish. In 2021, Texas 2036 shared pertinent data, research, reports, and expert insight on Texas' challenges and opportunities in accessible, accurate, and compelling ways. Texas 2036 staff shared information with the public through media interviews, op eds, blogs, presentations, panel discussions, social media, reports, infographics, one-pagers, and interactive websites.
