Independent Auditor's Report

To the Board of Directors
World Wildlife Fund, Inc. and Subsidiaries
Washington, D.C.

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of World Wildlife Fund, Inc. and Subsidiaries (WWF), which comprise the consolidated statements of financial position as of June 30, 2018 and 2017, and the related consolidated statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of World Wildlife Fund, Inc. and Subsidiaries as of June 30, 2018 and 2017, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Report on Summarized Comparative Information

We have previously audited World Wildlife Fund, Inc. and Subsidiaries' 2017 consolidated financial statements, and our report dated November 15, 2017, expressed an unmodified opinion on those audited consolidated financial statements. In our opinion, the summarized comparative information on the consolidated statement of functional expenses presented herein for the year ended June 30, 2017, is consistent, in all material respects, with the audited consolidated financial statements from which it has been derived.

Other Information

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The supplemental material comprising the consolidating schedule of financial position, consolidating schedule of activities, reconciliation of total expenses per the indirect expense allocation to the consolidated schedule of functional expenses and consolidated schedule of indirect expense allocation are presented for purposes of additional analysis and are not a required part of the basic consolidated financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 20, 2018 on our consideration of World Wildlife Fund, Inc. and Subsidiaries' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of World Wildlife Fund, Inc. and Subsidiaries' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering World Wildlife Fund, Inc. and Subsidiaries' internal control over financial reporting and compliance.

Notes to Consolidated Financial Statements

1. Summary of Accounting Policies

Organization

The mission of World Wildlife Fund, Inc. (WWF - Parent), a Delaware nonprofit corporation, is the conservation of nature. Using the best available scientific knowledge and advancing that knowledge where we can, we work to preserve the diversity and abundance of life on earth and the health of ecological systems by:

- Protecting natural areas and wild populations of plants and animals, including endangered species;
- Promoting sustainable approaches to the use of renewable natural resources; and
- Promoting more efficient use of resources and energy and the maximum reduction of pollution.

WWF is committed to reversing the degradation of the planet's natural environment and to building a future in which human needs are met in harmony with nature. WWF recognizes the critical relevance of human numbers, poverty, and consumption patterns to meeting these goals.

WWF is the largest member of an international WWF network which has offices in more than 50 countries. The independently incorporated WWF national organizations coordinate their conservation work. WWF-International, a secretariat located near Geneva, Switzerland, provides network services. WWF-US, WWF-International, and the WWF network are not consolidated, due to the lack of control among the entities.

1250 24 Street LLC ("1250 24 Street") is a District of Columbia limited liability company incorporated on January 26, 2017 to: (a) have and exercise all powers conferred by the laws of the District of Columbia on limited liability companies, and (b) do any and all things necessary, convenient or incidental for the achievement of the foregoing. Currently, 1250 24 Street leases and operates the building owned by WWF at 1250 24th Street, Northwest D.C. WWF has 100% membership interest in 1250 24 Street LLC.

1250 24 LLC ("1250 24") is a District of Columbia limited liability company incorporated on November 15, 2016 to: (a) have and exercise all powers conferred by the laws of the District of Columbia on limited liability companies, and (b) do any and all things necessary, convenient or incidental for the achievement of the foregoing. Currently, 1250 24 leases and operates a portion of the building owned by WWF at 1250 24th Street, Northwest D.C. WWF has 100% membership interest in 1250 24 LLC.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of WWF, 1250 24 Street and 1250 24 (collectively as "WWF"). All significant intercompany balances and transactions have been eliminated in consolidation. The consolidated financial statements include the accounts of WWF and its members worldwide, collectively referred to hereafter as WWF, where WWF has control in the form of majority voting interest in the Board of Directors, management of the leadership position or a majority source of funding. All significant intercompany balances and transactions have been eliminated in consolidation.

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Basis of Accounting

The consolidated financial statements of WWF have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Accounting Pronouncements to be Adopted

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which is a comprehensive new revenue recognition standard that will supersede existing revenue recognition guidance. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. FASB issued ASU 2015-14 that deferred the effective date for WWF until annual periods beginning after December 15, 2017. Earlier adoption is permitted subject to certain limitations. The amendments in this update are required to be applied retrospectively to each prior reporting period presented or with the cumulative effect being recognized at the date of initial application. Management is currently evaluating the impact of ASU 2014-09 on their consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the statement of financial position and disclosing key information about leasing arrangements for lessees and lessors. ASU 2016-02 applies a right-of-use (ROU) model that requires, for all leases with a lease term of more than 12 months, an asset representing its right to use the underlying asset for the lease term and a liability to make lease payments to be recorded. ASU 2016-02 is effective for WWF's fiscal years beginning after December 15, 2018 with early adoption permitted. Management is currently evaluating the impact of ASU 2016-02 on their consolidated financial statements.

In August 2016, the FASB issued ASU 2016-14, *Not-for-Profit Entities (Topic 958) - Presentation of Financial Statements of Not-for-Profit Entities*. ASU 2016-14 amends the current reporting model for nonprofit organizations and enhances their required disclosures. The major changes include: (a) requiring the presentation of only two classes of net assets now entitled "net assets without donor restrictions" and "net assets with donor restrictions", (b) modifying the presentation of underwater endowment funds and related disclosures, (c) requiring the use of the placed in service approach to recognize the expirations of restrictions on gifts used to acquire or construct long-lived assets absent explicit donor stipulations otherwise, (d) requiring that all nonprofits present an analysis of expenses by function and nature in either the statement of activities, a separate statement, or in the notes and disclose a summary of the allocation methods used to allocate costs, (e) requiring the disclosure of quantitative and qualitative information regarding liquidity and availability of resources, (f) presenting investment return net of external and direct internal investment expenses, and (g) modifying other financial statement reporting requirements and disclosures intended to increase the usefulness of nonprofit financial statements. ASU 2016-14 is effective for the WWF's financial statements for fiscal years beginning after December 15, 2017. Early adoption is permitted. The provisions of ASU 2016-14 must be applied on a retrospective basis for all years presented although certain optional practical expedients are available for periods prior to adoption. Management is currently evaluating the impact of ASU 2016-14 on their consolidated financial statements.

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

In August 2016, the FASB issued ASU 2016-15, *Classification of Certain Cash Receipts and Cash Payments (Topic 230)* which clarifies how certain cash receipts and cash payments are presented and classified in the statement of cash flows. The amendments are intended to reduce diversity in practice. ASU 2016-15 contains additional guidance clarifying when an entity should separate cash receipts and cash payments and classify them into more than one class of cash flows (including when reasonable judgment is required to estimate and allocate cash flows) versus when an entity should classify the aggregate amount into one class of cash flows on the basis of predominance. ASU 2016-15 is effective for fiscal years beginning after December 15, 2018, with early adoption permitted. Management is currently evaluating the impact of ASU 2016-15 on their consolidated financial statements.

In November 2016, the Financial Accounting Standards Board (FASB) issued ASU 2016-18, *Statement of Cash Flows: Restricted Cash (Topic 230)*, to address the classification and presentation of changes in restricted cash on the statement of cash flows. The ASU requires that a statement of cash flows explain the change in the total cash, cash equivalents, and amounts generally described as restricted cash and restricted cash equivalents. Thus, amounts generally described as restricted cash or restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. ASU 2016-18 is effective for the WWF's consolidated financial statements for fiscal years beginning after December 15, 2018. Early adoption is permitted and should be applied on a retrospective transition method to each period presented. Management is currently evaluating the impact of ASU 2016-18 on their consolidated financial statements.

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments - Overall (Subtopic 825-10), Recognition and Measurement of Financial Assets and Financial Liabilities*. The update affects the accounting for equity investments and financial liabilities, and the presentation and disclosure requirements for financial instruments. ASU 2016-01 is effective for fiscal years beginning after December 15, 2018. Early adoption is permitted and should be applied on a retrospective transition method to each period presented. Management is currently evaluating the impact of ASU 2016-01 on their consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments - Credit Losses (Topic 326), Measurement of Credit Losses on Financial Instruments*. ASU 2016-13 changes the impairment model for most financial assets that are measured at amortized cost and certain other instruments from an incurred loss model to an expected loss model. Entities will be required to estimate credit losses over the entire contractual term of an instrument. ASU 2016-13 is effective for fiscal years beginning after December 15, 2020. Early adoption may be selected for fiscal years beginning after December 15, 2018. WWF must apply the amendments in ASU 2016-13 through a cumulative-effect adjustment to net assets as of the beginning of the first reporting period in which the guidance is effective except for certain exclusions.

In June 2018, the FASB issued ASU 2018-08, *Not-for-Profit Entities (Topic 958), Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made*. ASU 2018-08 was issued to standardize how grants and other contracts received and made are classified across the sector, as either an exchange transaction or a contribution. The standard provides guidance to assist in the determination of whether a transaction is a contribution or an exchange transaction. If the transaction is deemed to be a contribution the guidance provides factors to consider with regard to whether the contribution is conditional or unconditional. For contributions received, if determined to be an unconditional contribution, the determination will then need to be made as to whether the contribution is restricted. ASU 2018-08 will assist in the determination of the nature

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

of the transaction which will then govern the revenue and expense recognition methodology and timing of the transaction. ASU 2018-08 is effective for transactions in which the entity serves as the resource recipient to annual periods beginning after December 15, 2018. ASU 2018-08 is effective for transactions in which WWF serves as a resource provider to annual periods beginning after December 15, 2019.

Basis of Presentation

WWF's net assets have been grouped into the following three classes:

- Permanently restricted net assets - Permanently restricted net assets result from contributions and other inflows of assets whose use by WWF is limited by donor-imposed stipulations that they be restricted to investment in perpetuity. The Russell E. Train Education for Nature Fund is a fund where the principal is to be held in perpetuity. WWF has other endowments that were contributed by donors who stipulated the investments be held in perpetuity.
- Temporarily restricted net assets - Temporarily restricted net assets result from contributions and other inflows of assets whose use is limited by donor-imposed restrictions that expire either with the passage of time or the fulfillment of a specific programmatic purpose. When a donor restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and are reported in the statements of activities as net assets released from restriction. When the restrictions on contributions are met in the same period that the contribution is received, the contribution is reported in the consolidated statements of activities as temporarily restricted revenues and as net assets released from restrictions.
- Unrestricted net assets - Unrestricted net assets result from revenues derived from unrestricted contributions, investment income, and other inflows of assets, the benefits of which are not limited by donor-imposed restrictions. Unrestricted Board-designated reserves result primarily from unrestricted bequests received that are designated for use in operations by the Board of Directors.

Cash and Cash Equivalents

Cash and cash equivalents are considered to be cash and limited period investments with original maturities of three months or less, except for those investment funds held as part of the investment portfolio.

Financial Risks

WWF maintains cash balances with federally insured institutions as well as in accounts located outside the United States. Accounts at federally insured institutions are insured by the Federal Deposit Insurance Corporation up to \$250,000 per bank at June 30, 2018 and 2017. At June 30, 2018 and 2017, WWF held \$39,535,624 and \$29,595,926, respectively, in uninsured accounts. WWF has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on its cash and cash equivalents.

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Funds Maintained in Foreign Accounts

Certain items reflected in consolidated statements of financial position, including cash and cash equivalents of \$3,605,973 and \$2,743,792 in local currencies at June 30, 2018 and 2017, respectively, and \$7,731,734 and \$10,440,563 in U.S. dollars, or Euros at June 30, 2018 and 2017, respectively are maintained at financial institutions in foreign countries. For financial reporting purposes, the year-end foreign currency balances are translated into U.S. dollars using current exchange rates in effect at the date of the consolidated statements of financial position.

Accounts Receivable

Accounts receivable are stated at their net realizable value. The allowance method is used to determine the uncollectible amounts. The allowance is based on prior years' experience and management's analysis of subsequent collections. If actual collection experience changes, revisions to the allowance may be required.

Pledges Receivable

Unconditional promises to give that are expected to be collected within one year are recorded at net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated future cash flows which approximates their fair value. The discounts on those amounts are computed using treasury bonds corporate rates applicable to the years in which the promises are received. Amortization of the discount is recorded as additional contribution revenue. An allowance is made for uncollectible pledges based upon management's judgment and an analysis of the creditworthiness of the donors, past collection experience, and other relevant factors.

Prepaid Assets

Prepaid assets, which consist of premiums, are stated at the lower of cost or market, with cost based on the first-in, first-out method. Premiums are miscellaneous items that are given to donors and others.

Investments

The fair value of marketable investments in equity and debt securities (which includes both domestic and foreign issues) and U.S. government obligations are based on the published current market value at June 30, 2018 and 2017. The fair values of WWF's investments in limited partnerships are based on management's valuation of estimates and assumptions from information and representations provided by the respective general partners in the absence of readily ascertainable market values.

Certain limited partnerships and corporate investments have no readily determinable market value and are valued at fair value as estimated by the general partners and corporations. Because of the inherent uncertainty of valuation, it is reasonably possible that estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material. In addition, certain investments may also have risk

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

associated with concentrations of investments in one geographic region and in certain industries. The limited partnership's ability to liquidate certain of its investments may be inhibited since the issuers may be privately held or the limited partnership may own a relatively large portion of the issuers' equity securities.

WWF recognizes an allowance for alternative investments in an amount equal to the estimated probable losses net of recoveries. The allowance is based on an analysis of the result of alternative investment's performance and expected future write-offs of unrecoverable investments. The expense associated with the allowance for alternative investments is recognized as finance and administrative expense in the consolidated statements of activities.

Long-term investments represent Board-designated reserves, endowments, charitable gift annuities, and pooled income funds held for long-term investment. Short-term investments consist of investments with a maturity date of 12 months or less.

Financial Instruments and Credit Risk

Financial instruments which potentially subject WWF to a concentration of credit risk consist principally of investments held at creditworthy financial institutions. By policy, these investments are kept within limits designed to prevent risk caused by concentration. Credit risk with respect to pledges receivable is considered limited due to the large WWF donor base. Credit risk with respect to accounts receivable relates to amounts due from the U.S. Government and entities in the WWF Network. Credit risk is considered limited due to the large number of entities from which amounts are due.

Bond Issuance Costs

Costs associated with issuance of bonds have been deferred and are amortized over the terms of the bonds. WWF uses the straight-line method, which approximates the effective interest method. The bond issuance costs are presented as direct deduction from the face amount of the related liability, consistent with the presentation of debt discounts, in accordance with ASU 2015-03, *Interest—Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*. Bond issuance costs totaled \$4,311,047 for the years ended June 30, 2018 and 2017, and accumulated amortization related to the bond issuance costs totaled \$3,534,460 and \$3,447,631 as of June 30, 2018 and 2017, respectively.

Land, Building, and Equipment

Land, building, and equipment are recorded at cost. WWF capitalizes all expenditures for property and equipment over \$5,000. Depreciation for equipment, furniture and software is computed using the straight-line method, with the half-year convention over the estimated useful lives of the assets. Depreciation and amortization for the building, building improvements and tenant improvements is computed using the straight-line method.

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

The estimated useful lives of WWF's assets are as follows:

Office equipment	3 years
Software and applications	3 - 10 years
Building and tenant improvements	15 years
Building	40 years

The estimated useful life of office furniture and fixtures is either 5 or 8 years, depending on the expected life of the asset. The estimated useful life of tenant improvements is the lesser of the term of the lease or life of the asset.

Impairment of Long-Lived Assets

WWF reviews asset carrying amounts whenever events or circumstances indicate that such carrying amounts may not be recoverable. When considered impaired, the carrying amount of the long lived asset is reduced, by a charge to the statements of activities, to its carrying value.

Other Noncurrent Assets

Other noncurrent assets consists of the assets for WWF's 457(b) pension and international plans recorded at fair market value, leasing commissions and deferred rent receivable. Rent revenue is recorded on the straight-line basis.

Split Income Gifts

WWF has been named as beneficiary in several split income gifts that include charitable gift annuities and remainder trusts. The values of all split income gifts have been determined using discount rates that range from 3.4% to 3.7%, based upon rates approved by the Internal Revenue Service (IRS) as of the date of the gift.

As of June 30, 2018 and 2017, \$10,294,686 and \$10,305,175, respectively, were included as long-term investments in the consolidated statements of financial position, and represent split income gifts for which WWF serves as the trustee. These gifts are recorded at the discounted present value of the gifts based on 2000CM mortality tables for split income gifts received prior to January 1, 2015, and the 2012 Individual Annuity Reserving (IAR) mortality tables for split income gifts received after January 1, 2015. WWF recognizes a liability for the portion of the split income gifts that is determined to be payable to beneficiaries under the terms of the agreements where WWF is the trustee. As of June 30, 2018 and 2017, these liabilities totaled \$5,652,073 and \$6,070,117, respectively, and are recorded as other long-term liabilities in the consolidated statements of financial position.

Income from these gifts is recorded as investment income and changes in the value are included in bequests, endowments, and split income gifts in the accompanying consolidated statements of activities.

For split income gifts, for which WWF does not serve as the trustee, WWF included a loss of \$(227,119) and \$(1,082,068) in bequests, endowments, and split income gifts on the accompanying consolidated statements of activities for the years ended June 30, 2018 and 2017, respectively.

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

WWF's beneficial interest in these gifts, which amounted to \$39,893,185 and \$42,133,790 at June 30, 2018 and 2017, respectively, is also recorded at the discounted present value of the gifts and is included in long-term trust receivables in the accompanying consolidated statements of financial position.

In addition to these gifts, WWF has been named as the beneficiary in several agreements that are either revocable, or for which a reasonable valuation cannot be calculated, or allow the donor or beneficiary to change WWF's right to receive the assets. Such agreements are therefore not recorded in the accompanying consolidated financial statements.

Grants Payable

Grants are primarily made to other conservation organizations. The grants are accrued when WWF makes a legally enforceable pledge to the organization. For grants that are for a period of more than one year, the future years' portion is considered conditional based on specific criteria, such as management review and approval against certain milestones and the receipt of future funding by WWF. The conditional portions of multi-year grants for the years ended June 30, 2018 and 2017, are \$8,522,139 and \$11,036,431, respectively, and are not recorded as grants payable in the accompanying consolidated financial statements.

Deferred Revenue

WWF receives funds from the WWF network and other organizations for specific projects performed at headquarters and various WWF field offices. WWF recognizes these funds as revenue earned to the extent of qualifying expenses incurred. All funds received from network sources in excess of expenses incurred are included in deferred revenue in the accompanying consolidated statements of financial position. Unrestricted revenue received from network sources is recorded as revenue when received. Any unrestricted revenue in excess of expenses incurred is included in unrestricted net assets in the accompanying consolidated statements of financial position.

Revenue Recognition

Contribution revenue is recognized at fair value on the earlier of the receipt of cash or an unconditional promise to give. From time to time, WWF receives promises to give that have certain conditions such as meeting specific milestones or revocable features to the promise to give. Conditional promises to give are recognized when the conditions are substantially met.

Federal grant awards are considered exchange transactions, and are recognized as revenue earned to the extent of qualifying expenses incurred or as such amounts are accrued.

Total operating revenue for the fiscal years ended June 30, 2018 and 2017 was \$348,301,321 and \$326,600,944, respectively. This amount is calculated based on the total revenues and support from operating activities and the change in net assets from nonoperating activities presented in the consolidated statements of activities, excluding gain on interest rate swaps and loss on foreign currency exchange.

Included in WWF network revenues on the consolidated statements of activities for the years ended June 30, 2018 and 2017, are revenues from WWF-Netherlands of \$4,724,728 and \$2,729,993, respectively. WWF network revenues are recognized as revenue earned to the extent of expenses incurred or as such amounts are accrued.

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

In-Kind Contributions

Radio and television stations and certain publications have contributed advertising time and space to WWF at no charge. The estimated fair values of the advertisements are based on independent third-party valuations and reported as in-kind contribution revenue and program expense in the period in which the advertisements are run. Certain other in-kind contributions have also been received and recorded at fair-market value in the period in which each contribution was made.

Non-Operating Income Allocated to Operations

Contributions, except for bequests and endowments, are reported as revenue from operating activities in the appropriate category of net assets. The Board of Directors has designated that bequests and endowments are not generally available for use in operations; therefore, these contributions are recognized as nonoperating activities in the appropriate category of net assets.

Investment income, including realized and unrealized gains and losses, in excess of amounts utilized in operations based on the organization's spending policy, is accounted for as an increase or decrease in non-operating activities. It is classified as unrestricted unless its use is restricted by explicit donor stipulations or by law.

Allocation of Joint Costs

WWF reports the costs of all materials and activities that include a fundraising appeal as fundraising costs unless certain specific conditions are met, in which case the joint costs may be allocated between fundraising and program expenses. WWF evaluates all programs that include fundraising to determine which programs would meet the requirements for allocation of costs. WWF allocates joint costs based on the relative direct cost method whereby costs are allocated to each of the components on the basis of their respective direct costs (i.e. costs incurred in connection with the multipurpose materials or activity that are specifically identifiable to each program or function).

In fiscal years 2018 and 2017, WWF incurred joint costs of \$37,167,231 and \$34,983,772, respectively, for informational materials and activities that included a fundraising appeal. Of those costs, \$20,191,123 and \$18,878,698 were allocated to fundraising expenses, and \$16,976,108 and \$16,105,074 were allocated to program expense, in fiscal years 2018 and 2017, respectively.

Use of Estimates

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Interpretation of Relevant Law

The Board of Directors has determined that an enacted version of Uniform Prudent Management of Institutional Funds Act (UPMIFA) applies to WWF's endowment funds. When a donor expresses intent clearly in a written gift instrument, WWF follows the donor's instructions. When a donor's intent is not so expressed, WWF shall spend an amount from the fund that is prudent, consistent with the purposes of the fund, relevant economic factors, and the donor's intent that the fund continue in perpetuity.

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Investment Policy Statement

As careful stewards of our donors' contributions, and to be respectful of their intent to support and further WWF's conservation efforts, WWF seeks to manage the investment portfolio to maximize funding for conservation while prudently managing risk. Careful management of the assets is designed to ensure a total return (income plus capital change) necessary to preserve and enhance (in real dollar terms) the principal of the fund and at the same time, provide a dependable source of support for current operations and programs. The investment portfolio includes donor-restricted funds that WWF must hold in perpetuity or for donor-specified period(s) as well as board-designated funds. The primary investment objective of the pool is to attain a net average annual total real return of 5% over rolling ten-year periods. Actual returns in any given period may vary from this amount but should be attainable over a series of ten-year periods.

Reclassifications

Certain balances in the consolidated statement of financial position and consolidated statement of activities at June 30, 2017 have been reclassified, with no effect on the change in net assets, to be consistent with the classification at June 30, 2018.

2. Accounts Receivable

Management believes amounts recorded in accounts receivable to be collectible based on historical collection experience, write-offs and other factors and, therefore, has not recorded an allowance against the accounts receivable as of June 30, 2018 and 2017. Accounts receivable is composed of the following at June 30:

	2018	2017
U.S. Government	\$ 14,875,758	\$ 14,257,855
Private Sector	5,531,968	3,734,556
WWF Network	12,389,545	16,249,200
Others	1,310,229	2,263,250
	\$ 34,107,500	\$ 36,504,861

During the years ended June 30, 2018 and 2017, WWF determined that \$23,351 and \$20,947, respectively, of accounts receivable were uncollectible based on review of outstanding amounts and are included as a cost of fundraising on the accompanying consolidated statements of activities.

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

3. Pledges Receivable

Unconditional promises to give consisted of the following at June 30:

	2018	2017
Less than a year	\$ 37,161,737	\$ 27,334,056
One to five years	26,385,360	19,082,657
More than five years	598,000	665,000
Subtotal	64,145,097	47,081,713
Less: discount to present value	(1,517,060)	(1,202,426)
Less: allowance for uncollectible pledges	(250,000)	(250,000)
Subtotal	62,378,037	45,629,287
Less: current portion of pledges receivable	(37,161,737)	(27,334,056)
Non-current portion of pledges receivable	\$ 25,216,300	\$ 18,295,231

The interest rates used to discount the amounts expected to be collected in future years range from 2.21% to 3.71% as of June 30, 2018. During the years ended June 30, 2018 and 2017, WWF determined that \$71,871 and \$17, respectively, of pledges receivable were uncollectible based on collection history and are included as part of operating expenses in the consolidated statements of activities.

4. Investments

Investments consisted of the following at June 30:

	2018	2017
Money market funds	\$ 18,646,894	\$ 18,997,796
Partnership investments	138,518,297	127,003,997
Debt and equity mutual funds	63,451,024	75,013,085
Common collective trusts	9,083,808	9,319,890
Debt and equity securities	26,422,000	19,876,515
Subtotal: investments before allowance	256,122,023	250,211,283
Less: allowance for alternative investments	-	(500,000)
Subtotal	256,122,023	249,711,283
Less: short-term investments	(18,377,944)	(15,967,716)
Long-term investments	\$ 237,744,079	\$ 233,743,567

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Investment return consisted of the following for the years ended June 30:

	2018	2017
Dividends and interest income	\$ 2,141,136	\$ 2,068,002
Realized and unrealized gains, net	16,432,359	32,084,011
Less: investment expenses	(2,264,690)	(1,737,716)
Income from investments, net	\$ 16,308,805	\$ 32,414,297

WWF received donated securities with a fair value of \$4,519,544 and \$3,477,097 during the years ended June 30, 2018 and 2017, respectively, to be used for unrestricted activities.

In January, 2014, WWF entered into a 'stranded assets' total return swap. WWF pays the total return from an index of coal and tar sands companies, and receives the total return on the S&P 500 index which settles quarterly. The swap is designed to hedge against portfolio risk specifically attributed to coal and tar sand business sectors. The fair market value of the swaps was a net payable position of \$247,139 and net receivable position of \$214,113 as of June 30, 2018 and 2017, respectively, and is included in accounts payable and accrued expenses and accounts receivable, respectively, in the consolidated statements of financial position.

5. Land, Building, and Equipment

Land, building, and equipment consisted of the following at June 30:

	2018	2017
Land	\$ 17,436,974	\$ 17,436,974
Building	45,982,829	45,982,829
Furniture and equipment	28,563,050	28,142,472
Building and tenant improvements	23,454,800	22,583,100
	115,437,653	114,145,375
Less: accumulated depreciation and amortization	(53,090,838)	(48,560,736)
Land, building, and equipment, net	\$ 62,346,815	\$ 65,584,639

WWF has allocated the building operating costs and interest expense between non-commercial and commercial building operations expense based on occupancy percentages. The non-commercial portion of these costs is allocated to program expense and supporting services expense by using the Modified Total Direct Cost (MTDC) method of indirect cost allocation as defined in Uniform Guidance, *Cost Principles for Non-Profit Organizations*. The MTDC method applies indirect costs using total salaries, benefits, and other expenses (less equipment, vehicles, and other purchases) as the base of distribution and is considered to be in agreement with U.S. GAAP.

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Depreciation and amortization expense consisted of the following for the years ended June 30:

	2018	2017
Depreciation, commercial building operations	\$ 1,156,070	\$ 1,130,837
Depreciation, all other building and equipment	3,374,032	2,902,529
Amortization of bond premium and issuance costs	78,115	81,646
Total depreciation and amortization	\$ 4,608,217	\$ 4,115,012

The commercial building operations net cash flows were \$1,010,279 and \$222,234 for fiscal years ended June 30, 2018 and 2017, respectively.

6. Long-Term Debt

Long-term debt was as follows at June 30:

	2018	2017
WWF Taxable Variable Rate Bonds, Series 2015	\$ 52,605,000	\$ 55,365,000
Unamortized original issue premium	104,561	113,275
Less: unamortized bond issuance costs, net	(776,587)	(863,416)
Long-term debt	51,932,974	54,614,859
Less: current portion	(2,910,000)	(2,760,000)
Long-term debt, net of current portion	\$ 49,022,974	\$ 51,854,859

On October 3, 2000, WWF entered into a purchase and sale agreement with a third-party seller to acquire the building in which WWF had previously leased its headquarters office space. To finance the building acquisition and additional improvements, WWF issued \$42,010,000 in District of Columbia Revenue Bonds (World Wildlife Fund, Inc. Issue) Series 2000A, which are tax-exempt, and \$41,355,000 in World Wildlife Fund, Inc. Taxable Variable Rate Bonds, Series 2000B.

On November 6, 2008, WWF refinanced the outstanding taxable Series 2000B bonds with a direct-pay bank letter of credit and issued \$35,600,000 World Wildlife Fund, Inc. Taxable Variable Rate Bonds, Series 20008B. On July 1, 2010, WWF refinanced the outstanding tax-exempt Series 2000A bonds with a direct-pay bank letter of credit to provide credit enhancement. The refinanced bonds were reissued as \$33,015,000 District of Columbia Variable Rate Refunding Revenue Bonds (World Wildlife Fund, Inc. Issue) Series 2010.

On May 20, 2015, WWF's letter of credit provider, paid the entire balance of the series 2010 and 2008B bonds and issued the \$59,700,000 World Wildlife Fund, Inc. Taxable Variable Rate Bonds Series 2015 ("Series 2015 Bonds") with substantially the same financial terms and conditions as the 2010 and 2008B bonds. The series 2015 bonds also has a maturity date of July 1, 2030 and is subject to variable interest rates, substantially similar to the series 2010 and 2008B bonds. The interest rate per annum is determined by the remarketing agent on the applicable rate determination date

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

as the lowest average interest rate which, in the opinion of the remarketing agent, under then-existing market conditions, would result in the sale of such bonds (in the daily rate period or weekly rate period, as applicable) at a price equal to the principal amount of such bonds on the rate determination date, plus interest, if any, accrued through the rate determination date.

On the same date, WWF entered into a reimbursement agreement with JP Morgan Chase for the latter to provide letter-of-credit covering the entire balance of the series 2015 bonds.

WWF evaluated the application of Accounting Standards Codification (ASC) 470-50, *Modifications and Extinguishments* and concluded that the refinancing constituted a debt modification. Under ASC 470-50, the existing bond premium issuance costs of the Series 2000B and 2010 will be amortized over the remaining term of the new Series 2015 bonds.

Upon issuance of the Series 2015 Bonds, WWF did not change the existing interest rate swaps. The swaps are used to minimize cash flow fluctuations of interest payments caused by the variable nature of the interest rates on the Series 2015 bonds. The interest on the outstanding principal balance is due monthly at the variable interest rate until maturity of the bonds and the interest on the swaps is due quarterly.

As of June 30, 2018, WWF has three interest-rate swap agreements covering \$52,280,000 of outstanding bonds to synthetically fix rates between 3.01% and 5.87%. The weighted average interest rate of the swaps was 4.89% and 4.80% for the fiscal years ended June 30, 2018 and 2017, respectively.

The swaps are recognized on the consolidated statements of financial position at fair value and are recorded as interest rate swap liability. Changes in the fair value of the swaps are recorded in gain on interest-rate swaps in the consolidated statements of activities. During the years ended June 30, 2018 and 2017, WWF recorded a gain of \$3,574,086 and \$5,393,969 in fair-market value adjustments to the liability of the swaps, respectively. Cumulative losses on the swaps from inception totaled \$7,801,469 as of June 30, 2018. The fair market value of the interest rate swap liabilities was \$7,801,469 and \$11,375,555 as of June 30, 2018 and 2017, respectively.

Maturities of debt are as follows:

2019	\$	2,910,000
2020		3,055,000
2021		3,215,000
2022		3,375,000
2023		3,555,000
Thereafter		36,495,000
		<hr/> 52,605,000
Less: unamortized bond issuance costs, net		(776,587)
Plus: unamortized original issue premium		104,561
	\$	<hr/> 51,932,974

WWF incurred total interest expense on the bonds and swaps of \$2,603,717 and \$2,716,146 for the years ended June 30, 2018 and 2017, respectively, which is allocated among the expenses, including building operations expense, based on internal allocation methods. WWF is subject to liquidity and

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

debt services coverage ratio requirements and certain restrictions and limitations with respect to the incurrence of indebtedness, consolidation, and merger and transfer of assets. As of June 30, 2018 and 2017, WWF was in compliance with these covenants.

7. Commitments and Contingencies

Litigation

In the course of business, WWF is from time to time a party to various claims and lawsuits. If management determines, based on the underlying facts and circumstances, that it is probable a loss will result from a litigation contingency and the amount of the loss can be reasonably estimated, the estimated loss is accrued for. Management does not expect any adverse financial impact from open litigation matters occurring in the normal course of business as of June 30, 2018.

Commitments

Certain alternative investments, which include private equity investments, have rolling lockup periods ranging from one to three years. WWF is obligated under certain limited partnership agreements to fund certain partnership investments periodically up to a specified level. At June 30, 2018, WWF had unfunded commitments of \$2,096,759. Such commitments are generally called over periods of up to seven years and contain fixed expiration dates or other termination clauses.

Operating Leases

WWF leases field office facilities under operating leases that expire on various dates through October 2020. It is expected that WWF will renew leases as necessary in the normal course of its activities. During the years ended June 30, 2018 and 2017, WWF recorded \$1,039,035 and \$950,759, respectively, in rental expense.

The following is a schedule of the future minimum lease payments as of June 30, 2018:

2019	\$	806,348
2020		277,320
2021		116,653
2022		265,639
2023		72,668
Total minimum lease payments		\$ 1,538,628

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Tenant Income

As part of the building acquisition, WWF assumed existing tenant lease agreements and has entered into new lease agreements with additional tenants. The minimum future lease rental income is as follows:

2019	\$	5,833,010
2020		5,264,987
2021		1,235,618
2022		749,618
2023		215,408
Thereafter		520,457
<hr/>		
Total	\$	13,819,098

Additionally, WWF has letters of credit from several banks, which list the tenants as the applicants and WWF as the beneficiary. Letters of credit in favor of WWF as of June 30, 2018 and 2017 were \$479,701 and \$457,444, respectively. At June 30, 2018 and 2017, no amounts had been drawn against the letters of credit.

Federal and State Programs

Amounts received and expended by WWF under various federal and state programs are subject to audit by government agencies. Management believes that adjustments, if any, which might result from such audits would not have a material impact on the financial position of WWF.

Indirect Cost Reimbursement

The reimbursement of indirect costs reflected in the accompanying consolidated financial statements as federal grants revenue is subject to final approval by federal grantors and could be adjusted upon the results of these reviews. Management believes that the results of any such adjustment will not be material to WWF's financial position or change in net assets.

8. Employee Benefits

WWF has a tax-deferred defined contribution plan under Section 403(b) of the Internal Revenue Code (IRC) for its employees. WWF's contributions under the plan are based on years of service and range from 3% to 9% of an eligible employee's annual salary. The expenses recorded by WWF for the plan were \$4,040,451 and \$4,568,944 for the years ended June 30, 2018 and 2017, respectively.

WWF has adopted two Deferred Compensation Plans (the Plan) in accordance with Section 457(b) and Section 457(f) of the IRC. The purpose of the 457(b) Plan is to offer certain eligible employees additional deferred compensation and/or the opportunity to defer specified amounts of compensation, on a pretax basis. The assets and liabilities associated with this Plan were \$1,686,816 and \$1,561,605 for the years ended June 30, 2018 and 2017, respectively. The assets for the 457(b) plan are included in other noncurrent assets and the liabilities are included in other long-term liabilities as presented in the consolidated statements of financial position. The purpose of the

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

457(f) Plan is the retention and recruitment of talent at the executive level. The expenses associated with the 457(f) Plan were \$115,056 and \$506,677 for the years ended June 30, 2018 and 2017, respectively. The 457(f) deferrals, which are reflected in other long-term liabilities, were \$419,487 and \$1,188,615 for the years ended June 30, 2018 and 2017, respectively.

During fiscal year 2004, WWF implemented a self-funded health insurance benefit plan under guidelines issued by the U.S. Department of Labor in accordance with the Employee Retirement Income Security Act (ERISA). Under this plan, WWF pays employee health insurance claims directly rather than using a third-party administrative service. To limit potential risk and exposure to higher than estimated claims, WWF has also purchased stop-loss insurance protecting WWF from claims over \$80,000 for individual employees and 125% of the actuarially determined yearly cost for the aggregated claims. The anticipated claims incurred but not reported were \$210,000 and \$158,000 as of June 30, 2018 and 2017, respectively, and are included in accounts payable and accrued expenses in the accompanying consolidated statements of financial position.

9. Income Taxes

WWF has received a determination letter from the Internal Revenue Service (IRS) that grants an exemption from income taxes under Section 501(c)(3) of the IRC except for any income that may be a result of unrelated business transactions. Additionally, the IRS has classified WWF as an organization other than a private foundation as a Section 509(a)(1) organization as referred to in Section 170(b)(1)(A)(vi).

Under ASC 740-10, *Income Taxes*, an organization must recognize the tax benefit associated with tax positions taken for tax return purposes when it is more-likely-than-not that the position will be sustained. WWF does not believe there are any material uncertain tax positions and accordingly it will not recognize any liability for unrecognized tax benefits. WWF has filed for and received income tax exemptions in the jurisdictions where it is required to do so. Additionally, WWF has filed IRS Form 990 and Form 990-T tax returns as required and all other applicable returns in those jurisdictions where it is required. WWF believes that it is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2015. For the year ended June 30, 2018 and 2017, there were no interest or penalties recorded or included in the consolidated statements of activities related to uncertain tax positions.

10. Temporarily Restricted Net Assets

Temporarily restricted net assets are restricted for the following purposes as of June 30:

	2018	2017
Purpose restricted Conservation and other programs	\$ 40,001,787	\$ 65,803,665
Time restricted	66,231,600	46,271,142
Purpose and time restricted	47,704,181	35,269,719
	\$ 153,937,568	\$ 147,344,526

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

11. Permanently Restricted Net Assets

Permanently restricted net assets are restricted to investment in perpetuity, the income from which is expendable, to support the following at June 30:

	2018	2017
U.S. and developed countries	\$ 301,618	\$ 301,618
International programs	18,766,317	17,461,946
Unrestricted support	18,105,463	18,014,336
Other programs	7,389,317	7,205,788
	<hr/>	<hr/>
	\$ 44,562,715	\$ 42,983,688

During the year ended June 30, 2018, certain transfers were made between unrestricted net assets, temporarily restricted net assets and permanently restricted net assets. The transfer are in accordance to the spending policy below.

Spending Policy and How the Investment Objectives Relate to Spending Policy

The Board-approved spending policy for fiscal year 2018 and 2017 is 100% of the trailing three-year average of available bequests, 5% of the trailing three-year average of Board-designated reserves, payout on endowments as directed by donors, other payouts approved by the Board of Directors, and payout balances available from prior years. In establishing this policy, WWF considered the long-term expected return of the investment portfolio and it is consistent with WWF's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return. The amounts authorized under this policy are reported as non-operating income on the accompanying consolidated statements of activities. Non-operating income allocated to operations represents the appropriations that are expended during the year.

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

The amounts expended for the years ended June 30, 2018 and 2017 were \$31,127,163 and \$30,744,617, respectively. Changes in endowment net assets for the year ended June 30, 2018 are as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	2018 Totals
Endowment net assets, beginning of year	\$144,542,088	\$ 23,742,816	\$ 42,983,688	\$ 211,268,592
Investment return				
Investment loss	(69,549)	(13,917)	(18,380)	(101,846)
Net appreciation, realized	3,498,150	680,321	849,802	5,028,273
Net appreciation, unrealized	7,724,824	2,609,878	675,661	11,010,363
Total investment return	11,153,425	3,276,282	1,507,083	15,936,790
Contributions	24,072,841	-	1,716,681	25,789,522
Appropriation of assets for expenditure	(33,267,502)	-	(1,644,737)	(34,912,239)
Endowment net assets, end of year	\$146,500,852	\$ 27,019,098	\$ 44,562,715	\$ 218,082,665

Appropriation of assets for expenditure pertains to income from interest and dividends received on endowment assets which may be used by WWF for operations or specific donor-specific designations in accordance to the endowment agreements.

Changes in endowment net assets for the year ended June 30, 2017 are as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	2017 Totals
Endowment net assets, beginning of year	\$ 138,193,973	\$ 17,352,958	\$ 42,210,435	\$ 197,757,366
Investment return				
Investment income	201,402	35,184	44,868	281,454
Net appreciation, realized	3,816,310	685,802	857,700	5,359,812
Net appreciation, unrealized	17,739,898	5,668,872	1,477,792	24,886,562
Total investment return	21,757,610	6,389,858	2,380,360	30,527,828
Contributions	19,370,730	-	-	19,370,730
Appropriation of assets for expenditure	(36,331,718)	-	(1,607,107)	(37,938,825)
Other adjustments	1,551,493	-	-	1,551,493
Endowment net assets, end of year	\$ 144,542,088	\$ 23,742,816	\$ 42,983,688	\$ 211,268,592

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

The distribution of endowment net assets between donor restricted and board-designated for the year ended June 30, 2018 are as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	2018 Totals
Donor restricted	\$ 11,292,963	\$ 27,019,098	\$ 44,562,715	\$ 82,874,776
Board-designated	135,207,889	-	-	135,207,889
Total endowment net assets	\$146,500,852	\$ 27,019,098	\$ 44,562,715	\$ 218,082,665

The distribution of endowment net assets between donor restricted and board-designated for the year ended June 30, 2017 are as follows:

	Unrestricted	Temporarily Restricted	Permanently Restricted	2017 Totals
Donor restricted	\$ 11,536,228	\$ 23,742,816	\$ 42,983,688	\$ 78,262,732
Board-designated	133,005,860	-	-	133,005,860
Total endowment net assets	\$ 144,542,088	\$ 23,742,816	\$ 42,983,688	\$ 211,268,592

12. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability between market participants in an orderly transaction on the measurement date. The market in which the reporting entity would sell the asset or transfer the liability with the greatest volume and level of activity for the asset or liability is known as the principal market. When no principal market exists, the most advantageous market is used. This is the market in which the reporting entity would sell the asset or transfer the liability with the price that maximizes the amount that would be received or minimizes the amount that would be paid. Fair value is based on assumptions market participants would make in pricing the asset or liability. Generally, fair value is based on observable quoted market prices or derived from observable market data when such market prices or data are available. When such prices or inputs are not available, the reporting entity should use valuation models.

ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value and maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring the use of observable inputs when available. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Valuation based on quoted market prices in active markets for identical assets or liabilities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment. Examples include equity securities and publicly traded mutual funds that are actively traded on a major exchange or over-the-counter market.

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Level 2 - Valuation methodology inputs may include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Examples include the fair value of municipal bonds which are estimated using recently executed transactions, bid/asked prices, and pricing models that factor in, where applicable, interest rates, bond spreads, and volatility.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Level 3 - Valuation based on inputs that are unobservable and reflect management's best estimate of what market participants would use as fair value. Examples include limited partnerships and private equity investments.

Some of WWF's investments may be illiquid and WWF may not be able to vary the portfolio in response to changes in economic and other conditions. Some of the investments that are purchased and sold are traded in private, unregistered transactions and are therefore subject to restrictions on resale or otherwise have no established trading market. In addition, if WWF is required to liquidate all or a portion of its portfolio quickly, WWF may realize significantly less than the value at which it previously recorded those investments.

Investments valued at Net Asset Value (NAV) - WWF reports certain investments using NAV per share as determined by investment managers under the so called "practical expedient". The practical expedient allows NAV per share to represent fair value for reporting purposes when the criteria for using this method are met. These investment funds are held as units or interest in institutional funds or limited partnerships, which are stated at the NAV or its equivalent. WWF uses the NAV as a practical expedient to estimate the fair value, unless it is probable that all or a portion of the investment will be sold for an amount different than NAV. Pursuant to FASB ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or Its Equivalent)*, WWF has not categorized these investments in levels within the fair value hierarchy table.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although WWF believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Mutual funds: WWF's holdings in publicly traded mutual funds consist principally of debt and equity securities carried at their aggregate market value that is determined by quoted market prices. Each of these investments can be liquidated daily. Valuation is based on Level 1 inputs within the hierarchy used in measuring fair value.

Money market funds: Money market funds consist of short-term, or less than one-year, securities representing high-quality, liquid debt and monetary instruments.

Debt and equity securities: Debt and equity securities consist of investments in U.S. government debt and credit securities, U.S. and non-U.S. equity securities, and funds holding similar securities.

Common collective trusts: Common collective trusts are non-registered pooled investment funds. The fair values of the investments have been estimated using the NAV per share of the fund. Common collective trust fund shares may be redeemed at net asset value on a daily or monthly basis, depending on the fund.

Long-term trust receivables: Long-term trust receivables consist of charitable remainder trust receivables. The fair value of trust receivables is based on the present value of future expected earnings. Given the fact that these long-term receivables do not have quoted market prices and are not actively traded, their valuation is based on Level 3 inputs within the hierarchy used in measuring fair value.

Partnership investments: Partnership investments consist of alternative investments made in limited partnerships, offshore limited liability companies and private equity concerns, all of which are valued based on Level 3 inputs within the investment hierarchy used in measuring fair value. Given the absence of market quotations, the fair value is estimated using information provided to WWF by the investment managers or general partners. The values are based on estimates that require varying degrees of judgment and, for fund of funds investments, are primarily based on financial data supplied by the investment managers of the underlying funds. Individual investment holdings within the alternative investments may include investments in both nonmarketable and market-traded securities. Nonmarketable securities may include equity in private companies, real estate, thinly traded securities, and other investment vehicles. The investments may indirectly expose WWF to the effects of securities lending, short sales of securities, and trading in futures and forward contracts, options, swap contracts, and other derivative products. While these financial instruments contain varying degrees of risk, WWF's exposure with respect to each such investment is limited to its carrying amount (fair value as described above) and any unfunded commitments in each investment. The financial statements of the investees are audited annually by nationally recognized firms of independent auditors. WWF does not directly invest in the underlying securities of the investment funds and due to restrictions on transferability and timing of withdrawals from the limited partnerships, the amounts ultimately realized upon liquidation could differ from reported values that are based on current conditions.

Interest rate swap liability: The estimate of fair value of the interest rate swap liability at year end approximates its carrying amount, which represents the amount WWF would pay to exit the swap agreements taking into account current interest rates. Given that the swaps do not have quoted market prices and are not actively traded, their valuation is based on Level 3 inputs within the hierarchy used in measuring fair value.

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Financial assets and liabilities carried at fair value measured on a recurring basis as of June 30, 2018 are as follows:

	Level 1	Level 2	Level 3	Totals

Notes to Consolidated Financial Statements

Level 3 gains and losses

The following table presents WWF's activity for assets measured at fair value on a recurring basis using significant unobservable inputs as defined in ASC 820 for the years ended June 30:

	2018	2017
Beginning balance	\$ 74,534,740	\$ 78,030,575
Total realized/unrealized gains included in changes in net assets	1,217,899	175,422
Purchases	5,777,473	173,987
Settlements	(3,785,188)	(3,845,244)
Ending balance	\$ 77,744,924	\$ 74,534,740

The following table presents WWF's activity for liabilities measured at fair value on a recurring basis using significant unobservable inputs as defined in ASC 820 for the years ended June 30:

	2018	2017
Beginning balance	\$ (11,375,555)	\$ (16,769,524)
Total realized/unrealized gains included in changes in net assets	3,574,086	5,393,969
Ending balance	\$ (7,801,469)	\$ (11,375,555)

Quantitative Information

Quantitative information as of June 30, 2018, with respect to assets and liabilities measured and carried at fair value on a recurring basis with the use of significant unobservable inputs (Level 3) follows:

Description	Fair Value	Principal Valuation Techniques	Unobservable Inputs	Weighted Average
Long-term trust receivables	\$39,893,185	Income Approach	Discount rates Life expectancies Trust payouts Allocation percentages	N/A
Partnership investments	\$37,851,739	Each of the Fund Manager's principal valuation techniques is to discount future cash flows	Unobservable inputs for each underlying funds' investment are less than any liabilities of the fund discount rate and liquidity discounts	N/A

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Quantitative unobservable inputs are not developed by WWF in the valuation of its investments or swap liabilities. WWF uses the values reported by each fund manager as the basis for valuation noting that the valuation techniques and unobservable inputs vary widely among its fund managers. The swap liabilities are non-complex instruments and are valued using standard yield curves adjusted to mid-market values as deemed appropriate by the counterparties.

Level 3 Valuation Process

Absent a solid, reliable quantitative model to assess the reasonableness of investment manager reported valuations, WWF management applies qualitative measures which consist of various informational analyses including:

- Comparisons of reported performance to benchmark performances, with particular interest in fund performance in excess of 5% above or below appropriate benchmarks.
- Reviews of external audit reports of each fund.
- Reviews of Service Organization Controls (SOC) 1 reports of each fund where available.
- Monitoring and evaluation of relevant news in the financial press.
- Participation in conference calls, presentations, or investor meetings conducted by investment managers.
- Consideration and review of non-public information available through subscription financial information services and/or communications from individual fund managers.
- Consideration of fund managers' delivery of quality and timely fund performance information, risk analysis, market outlook analysis and overall responsiveness to investor queries and requests for information.

WWF's investment advisor also performs on-going due diligence of the funds which includes evaluation of each fund manager's investment process, organizational changes, compliance with applicable rules and regulations, review of fees and charges, and analysis of performance, leverage, return patterns, volatility over time, drawdowns and recovery periods, gross and net exposures, and other factors as determined to be appropriate, conducting regular calls with management of the funds and meeting periodically with WWF's investment committee to reports the performance of the funds. There were no changes in valuation techniques noted for these funds for 2018 and 2017.

For long-term trust receivables, WWF gathers as much information as possible for each instrument, including the initial and current trust value, the amount allocated to WWF, the date of birth of any other beneficiaries and payout amounts. WWF uses a standard charitable gift calculation model using these inputs and a standard discount rate reset each year based on current IRS discount rates. For any input not readily available, management develops a best estimate for use in the calculation. There were no changes in valuation techniques for the long-term trust receivables for 2018 and 2017.

For swap liabilities, WWF tracks quoted values for each instrument monthly to assess the reasonableness of reported values. Management also ensures that there have not been any changes in the underlying terms of each swap during the year. There were no changes in valuation techniques for the swap liabilities for 2018 and 2017.

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

Level 3 Sensitivity of Fair Value Measurements and Changes in Significant Observable Inputs

The significant unobservable inputs used in the fair value measurement of WWF's long-term trust receivables and alternative investments are subject to market risks resulting from changes in the market value of their underlying investments. The significant unobservable inputs used in the fair value measurement of WWF's swap liabilities are subject to market risks resulting from changes in the mid-market consensus for similar instruments. There were no transfers in and out of level 3.

Fair value on a nonrecurring basis

The fair value of WWF's cash and cash equivalents, accounts receivable, prepaid assets, other current assets, accounts payable and accrued expenses, and grants payable approximate their carrying amounts due to the short maturity of these instruments.

The estimated fair values of WWF's financial instruments that are not measured at fair value on a recurring basis as of the year ended June 30, 2018 are as follows:

	Level in Fair Value Hierarchy	Carrying Amount	Fair Value
Pledges receivable	2	\$ 62,378,037	\$ 62,141,646
Debt	2	\$ 52,709,561	\$ 52,605,000
Other long-term liabilities	2	\$ 8,090,626	\$ 8,090,626

The estimated fair values of WWF's financial instruments that are not measured at fair value on a recurring basis as of the year ended June 30, 2017 are as follows:

	Level in Fair Value Hierarchy	Carrying Amount	Fair Value
Pledges receivable	2	\$ 45,629,287	\$ 45,879,287
Debt	2	\$ 54,478,275	\$ 55,365,000
Other long-term liabilities	2	\$ 8,998,451	\$ 8,998,451

The carrying amount is the amount at which the financial instrument is recorded on the books of WWF. The fair value is the estimated amount at which the financial instrument could be exchanged in a current transaction between willing parties.

Pledges receivable: Fair value is estimated based on the present value of pledges receivable using estimated future payments and current IRS discount rates.

Long-term debt: Fair value is estimated based on the quoted market prices for the same or similar issues or on the current rates offered to WWF for debt of the same remaining maturities. As WWF debt is backed by a variable rate letter of credit, it trades and is valued at par.

Other long-term liabilities: Fair value is estimated based on the present value of outstanding liabilities using current IRS discount rates.

World Wildlife Fund, Inc. and Subsidiaries

Notes to Consolidated Financial Statements

13. Net Asset Value (NAV) Per Share

In accordance with ASU 2009-12, *Fair Value Measurements and Disclosures (Topic 820) - Investment in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*, WWF expanded disclosures to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share or its equivalent for which fair value is not readily determinable. For WWF, such assets include the partnership investments.

The following table summarizes WWF's investments with a reported NAV as of June 30, 2018:

Investment Type	Fair Value	Unfunded Commitments	Redemption Frequency	Notice Period (Days)
Fund Partnerships -				
Equity	\$ 4,883,999	\$ -	Every 36 months	90
Equity	3,508	-	As available	n/a
Equity	11,571,393	-	25% Monthly	5
International	14,435,995	-	Monthly	16
International	5,444,859	-	Quarterly	90
International	6,586,440	-	Daily	3
International	5,395,558	-	Monthly	3
International	15,266,596	-	Monthly	10

World Wildlife Fund, Inc. and Subsidiaries

Notes to Schedule of Expenditures of Federal Awards

1. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the schedule) includes the federal grant activity of World Wildlife Fund, Inc. (WWF) under programs of the federal government for the year ended June 30, 2018. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of WWF, it is not intended to and does not present the financial position, changes in net assets or cash flows of WWF. Therefore, some amounts presented in the schedule may differ from amounts presented in the consolidated financial statements.

Sub-awards made to organizations assisting in the project implementation are expensed in the consolidated financial statements when the agreement is entered into by WWF. The schedule for the year ended June 30, 2018 includes only payments made by WWF to subrecipients for periods through June 30, 2018. If a sub-award agreement is prematurely terminated or not fully expended, the remaining expenses and related revenue are reversed in the consolidated financial statements.

The reimbursement of indirect costs reflected in the accompanying consolidated financial statements as federal grants revenue is subject to final approval by federal grantors and could be adjusted upon the results of these reviews. Management believes that the results of any such adjustment will not be material to WWF's financial position or change in net assets.

All of WWF's federal awards were in the form of cash assistance for the year ended June 30, 2018.

WWF had no federally funded insurance programs or loan guarantees during the year ended June 30, 2018.

2. Summary of Significant Accounting Policies

Expenditures reported on the schedule are reported on the cash basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in Office of Management and Budget (OMB) Circular A-122, *Cost Principles for Non-Profit Organizations*, or the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented when available. WWF has elected not to use the 10-percent de minimis indirect cost rate allowed under the *Uniform Guidance*.

World Wildlife Fund, Inc. and Subsidiaries

Notes to Schedule of Expenditures of Federal Awards

3. Subrecipients

Of the federal expenditures presented in the schedule, WWF provided federal awards to subrecipients during the year ended June 30, 2018, as follows.

CFDA Number	Program Name	Amount Provided to Subrecipients
98.001	Foreign Assistance for Programs Overseas	\$ 10,927,656
98.011	Global Development Alliance	341,460
19.017	Environmental and Scientific Partnerships and Programs	166,594
19.705	Trans-National Crime	645,873
15.619	Rhinoceros and Tiger Conservation Fund	141,977
15.629	Great Apes Conservation Fund	122,718
15.651	Wildlife Without Borders - Africa	1,893,268
15.679	Combating Wildlife Trafficking	34,787
10.684	International Forestry Cooperation Act of 1990	14,000
10.902	Natural Resources Conservation Service / National Fish and Wildlife Foundation	21,384
11.463	Habitat Conservation	4,000
11.469	Congressionally Identified Awards and Projects	13,973
Total		\$ 14,327,690

4. Reconciliation of SEFA

As described in Note 2 to the SEFA, the expenditures reported on the SEFA are reported on the cash basis of accounting as a result of WWF's accounting for subawards made to organizations. The SEFA for the year ended June 30, 2018 includes only payments made by WWF to subrecipients for periods through June 30, 2018. The schedule below reconciles the expenditures on the SEFA to the expenditures contained within the consolidated statement of activities. Additionally, the expenditures of federal awards are reconciled to revenue from government grants and contracts on the consolidated statement of activities.

Year Ended June 30, 2018		
Total Federal Expenditures per the Consolidated Statement of Activities	\$	22,944,825
Less: Amounts Not Yet Paid to Subrecipients, Included in Grants Payable in the Consolidated Statement of Financial Position		2,279,560
Total Federal Expenditures per the SEFA	\$	20,665,265

World Wildlife Fund, Inc. and Subsidiaries

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

To the Board of Directors
World Wildlife Fund, Inc.
Washington, D.C.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of World Wildlife Fund, Inc. and Subsidiaries (WWF), which comprise the consolidated statement of financial position as of June 30, 2018, and the related consolidated statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated November 20, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered WWF's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of WWF's internal control. Accordingly, we do not express an opinion on the effectiveness of WWF's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's consolidated financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether WWF's consolidated financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of consolidated financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering WWF's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance For Each Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

To the Board of Directors
World Wildlife Fund, Inc.
Washington, D.C.

Report on Compliance for Each Major Federal Program

We have audited World Wildlife Fund, Inc. and Subsidiaries' (WWF) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of WWF's major federal programs for the year ended June 30, 2018. WWF's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of WWF's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about WWF's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of WWF's compliance.

Opinion on Each Major Federal Program

In our opinion, WWF complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Other Matters

The results of our auditing procedures disclosed one instance of noncompliance, which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2018-01. Our opinion on each major federal program is not modified with respect to this matter.

WWF's response to the noncompliance finding identified in our audit is described in the accompanying corrective action plan. WWF's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of WWF is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered WWF's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of WWF's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However we did identify a deficiency in internal control over compliance, described in the accompanying schedule of findings and questioned costs as item 2018-01, that we consider to be a significant deficiency.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

BDO USA, LLP

November 20, 2018

World Wildlife Fund, Inc. and Subsidiaries

Schedule of Findings and Questioned Costs Year Ended June 30, 2018

Section I - Summary of Auditor's Results

Consolidated Financial Statements

Type of report the auditor issued on whether the consolidated financial statements audited were prepared in accordance with U.S. GAAP

Unmodified

Internal control over financial reporting:

- Material weakness(es) identified? ☐ yes ☒ no
- Significant deficiency(ies) identified? ☐ yes ☒ none reported
- Noncompliance material to consolidated financial statements noted? ☐ yes ☒ no

Federal Awards

Internal control over major federal programs:

- Material weakness(es) identified? ☐ yes ☒ no
- Significant deficiency(ies) identified? ☒ yes ☐ none reported

Type of auditor's report issued on compliance for major federal programs:

Unmodified

Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)?

☒ yes ☐ no

Identification of major programs:

CFDA Number

Name of Federal Program or Cluster

98.001

USAID Foreign Assistance for Programs Overseas

98.011

USAID Global Development Alliance

19.705

U.S. Department of State Trans-National Crime

Dollar threshold used to distinguish between Type A and Type B programs:

\$750,000

Auditee qualified as low-risk auditee?

☒ yes ☐ no

World Wildlife Fund, Inc. and Subsidiaries

Schedule of Findings and Questioned Costs Year Ended June 30, 2018

Section II - Financial Statement Findings

There were no findings related to the consolidated financial statements which are required to be reported in accordance with generally accepted government auditing standards.

Section III - Federal Award Findings and Questioned Costs

2018-001 Internal Control Over Compliance and Compliance with Allowable Costs and Cost Principles for Indirect Costs

Information on Federal Programs: All programs are affected by this finding.

Criteria or Specific Requirement: In accordance with §200.303 *Internal Controls* states that a non-federal entity must (a) establish and maintain effective internal control over the federal award that provides reasonable assurance that the non-federal entity is managing the federal award in compliance with federal statutes, regulations, and the terms and conditions of the federal award.

These internal controls should be in compliance with guidance in “Standards for Internal Control in the Federal Government” issued by the Comptroller General of the United States or the “Internal Control Integrated Framework”, issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO); (b) comply with federal statutes, regulations, and the terms and conditions of the federal awards; (c) evaluate and monitor the non-federal entity’s compliance with statutes, regulations, and the terms and conditions of federal awards.

Additionally, In accordance §200.474(e), *Commercial Air Travel*, airfare costs in excess of the basic least expensive unrestricted accommodations class offered by commercial airlines are unallowable except when such accommodations would: (i) require circuitous routing; (ii) require travel during unreasonable hours; (iii) excessively prolong travel; (iv) result in additional costs that would offset the transportation savings; or (v) offer accommodations not reasonably adequate for the traveler’s medical needs. The non-Federal entity must justify and document these conditions on a case-by-case basis in order for the use of first-class or business-class airfare to be allowable in such cases.

Condition: During our testing of cost allowability included in the WWF indirect cost pool, we selected 25 expenses for testing. Of those 25 expenses, we identified one instance in which airfare costs in excess of the basic least expensive unrestricted accommodations class offered by a commercial airline were charged to the indirect cost pool. The difference between the business class flight charged to the indirect cost pool and the basic least expensive unrestricted accommodations class offered was approximately \$1,360.

Questioned Costs: Known questioned costs totaled \$1,360.

Context: This is a condition identified per review of WWF’s compliance with the allowability provisions of the Uniform Guidance. The prevalence of this finding is detailed in the condition section above.

Cause: WWF has documented expenditure policies and procedures surrounding the allowability of expenses charged to federal programs. However, as identified above, management’s internal controls did not allow management to detect the need to reduce the business class airfare to the basic least expensive unrestricted accommodations class prior to charging the amount to the indirect rate pool.

World Wildlife Fund, Inc. and Subsidiaries

Schedule of Findings and Questioned Costs Year Ended June 30, 2018

Effect: While the known and likely questioned costs that resulted from the conditions identified above were minimal, the lack of adherence to the established internal control policies and procedures can lead to noncompliance with federal statutes, regulations, and the provisions of grant agreements which could ultimately lead to disallowed costs for the major programs.

Repeat Finding: This is not a repeat finding.

Recommendation: We recommend that WWF periodically review travel-related expenses charged to the indirect rate pool for allowability to ensure compliance with §200.474(e).

Views of Responsible Officials: Management agrees with the finding. See management's corrective action plan.

2018-001 Internal Control Over Compliance and Compliance with Allowable Costs and Cost Principles for Indirect Costs

Contact: Leroy Wade

Title: Controller

Phone Number: 202-293-4800

Estimated Completion Date - November 2018

Corrective Action - WWF has stringent internal control and monitoring procedures to detect and prevent unallowable cost. WWF recently updated its internal control process to further strengthen its systems and ensure that unallowable costs are not included in the indirect cost pool.”
