These sites are updated regularly, and contain history and program documentation, along with breaking news about the Social Security and Medicare programs.

An overwhelming majority of our members supported the creation of a charitable foundation to serve the information needs of older Americans. One that could serve as a source of guidance to those on the threshold of retirement, to those already in their retirement years, and to those taking a long-range look at their future retirement

Keeping in mind that the cost of professional guidance is often prohibitively expensive for America's Seniors, the AMAC Foundation provides all of its services completely free of charge .

Your financial support will play a vital role in helping us build the services that will continue to enrich the lives of America's Seniors.
