

The total income and average total income have surged from 2015 to 2017, with the average income increasing by about **50%** per year. Our 2017 total income was \$68,353.74.

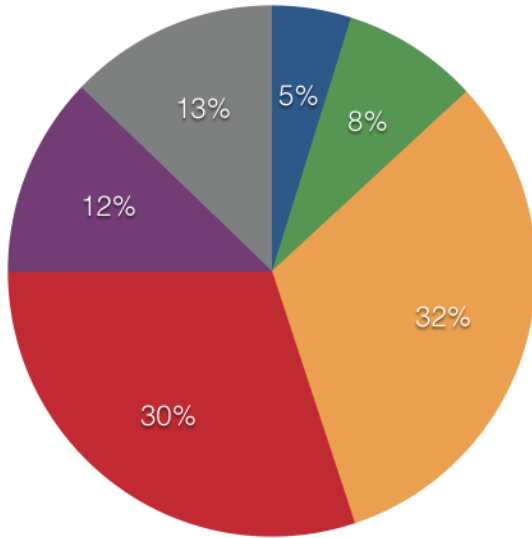

Our salary and payroll expenses have remained fairly constant, decreasing slightly from **7%** to roughly **5.6%** as a proportion of total income.

Our net income has grown exponentially since 2015, from a **\$260** net income in 2015 and a **\$21** net income in 2016, to a **\$17,000** net income in 2017. That's a net income around **810 times** greater than in 2016!
