INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
New Generations:

We have audited the accompanying financial statements of New Generations (the Organization) (a non-profit organization) which comprise the statements of financial position as of December 31, 2020 and 2019, and the related statements of activities, cash flows and functional expenses for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

MEMBER
INPACT
INTERNATIONAL ALLIANCE OF PROFESSIONAL ACCOUNTANTS

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of New Generations as of December 31, 2020 and 2019, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

NEW GENERATIONS
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020 AND 2019

(1) NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

New Generations (the Organization) is a non-profit organization that is an international Christian ministry that partners with God and national leaders to launch Disciple Making Movements among the world's least reached people. The Organization hopes to increase the movements of obedient disciples that can virally reproduce within their natural networks as a way to engage the billions of people that are outside the reach of traditional missions. The Organization was recognized as a 501(c)(3) entity in September, 2017.

The Organization evaluated its December 31, 2020 financial statements for subsequent events through March 29, 2021.

The following summarizes the significant accounting policies and practices reflected in the accompanying financial statements:

Basis of Accounting -

The Organization maintains its financial statements on the accrual basis of accounting which recognizes the support and revenue as it is earned and expenses as they are incurred.

Financial Statement Presentation -

The financial statements of the Organization have been prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP). Under GAAP, the Organization is required to report information regarding its financial position and activities according to two classes of net assets: without donor restrictions and with donor restrictions.

Without donor restrictions - Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the Organization.

With donor restrictions - Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Organization or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated that the funds be maintained in perpetuity.

Prepaids -

Prepaids consist of advances to various individuals for the Disciple Making Movements expenses.

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Income Taxes -

The Organization has been determined by the Internal Revenue Service to be exempt from income tax under Section 501(c)(3) of the Internal Revenue Code, and is exempt from federal income taxes, except for taxes on unrelated business income generated from unrelated trade or business activities. The Organization did not have unrelated business income for the year ended December 31, 2020. Accordingly, no provision for income tax has been established.

The Organization files informational returns in the U.S. federal jurisdiction and various states. The Organization is subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for fiscal years 2018, 2019, and 2020. The Organization does not expect a material net change in unrecognized tax benefits in the next twelve months.

Use of Estimates -

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results may vary from those estimates.

Cash and Cash Equivalents -

For purposes of the statement of cash flows, the Organization considers all highly liquid instruments with an original maturity of three months or less to be cash equivalents.

Concentration of Credit Risk -

Financial instruments, which potentially subject the Organization to concentrations of credit risk, consist principally of cash.

The Organization places its cash and deposits with high quality financial institutions; however, deposits may exceed the federally insured limits from time to time.

Promises to Give -

Unconditional promises to give that are expected to be collected within one year are recorded at net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at fair value, which is measured as the present value of their future cash flows. The discounts on those amounts are computed using risk-adjusted interest rates applicable to the years in which the contributions are received. Amortization of the discounts is included in contribution revenue. Conditional promises to give are not included as support until the conditions are substantially met. All contributions receivable are considered fully collectible based on past experience and management's judgment; therefore, no allowance for doubtful contribution accounts receivable is needed.

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

Investments -

The Organization invests in mutual funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of financial position and activities.

Investments in mutual funds are carried at fair value based on quoted market prices for those investments.

Contributions -

The Organization recognizes contributions when cash, securities or other assets, an unconditional promise to give; or a notification of a beneficial interest is received. Conditional promises to give – that is, those with measurable performance or other barrier and a right of return – are not recognized until the conditions on which they depend have been met.

Consequently, at December 31, 2020, contributions approximating $500,000, respectively, have not been recognized in the accompanying statement of activities because the condition(s) on which they depend has not yet been met. The conditional contribution depends on raising additional contributions before December 8, 2021 that will be matched dollar-for-dollar. In addition, the Organization must file a report showing the match has been met.

Revenue With and Without Donor Restrictions -

The Organization reports gifts of cash and other assets as revenue with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires; that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions. Gifts of cash and other assets that is restricted by a donor is responded as an increase in net assets without donor restrictions if the restriction expires in the reporting period in which the gift is recognized.

Functional Allocation of Expenses -

The financial statements report certain categories of expenses that are attributed a program or supporting function. Therefore, expenses require allocation on a reasonable basis that is consistently applied. The expenses that are allocated include salaries and related expenses, travel and entertainment, miscellaneous, and telephone which are allocated on the basis of estimates of time and effort.

(2) PROMISES TO GIVE:

At December 31, 2020 and 2019, the timing of payments of accounts and contributions receivable as determined by the underlying agreements are expected to be as follows:

	2020	2019
Receivable in less than one year	$ 125,000	$ 175,528
Receivable in greater than one year and less than five years	-	125,000
Total accounts and contributions receivable	125,000	300,528
Less unamortized discounts	-	-
Net accounts and contributions receivable	$ 125,000	$ 300,528

(3) FAIR VALUE MEASUREMENTS:

The Accounting Standards Codification for Fair Value Measurements established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this codification are described as follows:

Level 1:

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2:

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

(3) FAIR VALUE MEASUREMENTS: (Continued)

Level 3:

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2020 and 2019.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Organization at year end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Organization believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Organization's assets at fair value:

	Assets at Fair Value as of December 31, 2020			
Description	Level 1	Level 2	Level 3	Total
Large cap value mutual funds	$ 701,050	$ -	$ -	$ 701,050

	Assets at Fair Value as of December 31, 2019			
Description	Level 1	Level 2	Level 3	Total
Large cap value mutual funds	$ 100,007	$ -	$ -	$ 100,007

(4) NET ASSETS WITH DONOR RESTRICTIONS:

Net assets with donor restrictions are available for the following programs at December 31, 2020 and 2019:

	2020	2019
Africa	$ 25,461	$ 140,105
South East Asia	263,454	256,485
Time restricted	162,935	325,402
Bolthouse	660,244	517,100
North America	15,544	5,738
South Africa	11,560	-
	$ 1,139,198	$ 1,244,830

(5) AVAILABILITY AND LIQUIDITY:

The following represents the New Generation's financial assets at:

	December 31, 2020	2019
Financial assets -		
Cash and cash equivalents	$ 3,140,490	$ 2,369,829
Promises to give	125,000	300,528
Investments	701,050	100,007
Total financial assets	3,966,540	2,770,364
Less donor-imposed restrictions	1,139,198	1,244,830
Financial assets available to meet cash needs for general expenditures within one year	$ 2,827,342	$ 1,525,534

The Organization's goal is to generally maintain enough financial assets to meet 3 months of operating expenses (approximately $1,150,000).

The Organization manages its liquidity and reserves adhering to the following principles:

- operating within a prudent range of financial soundness and stability.
- incurring unbudgeted costs only when such costs are funded.
- maintaining adequate liquid assets to fund near-term operating needs.

(6) MANAGEMENT RESPONSE TO COVID-19:

In March 2020, the World Health Organization declared the novel strain of coronavirus (COVID-19) a global pandemic and recommended containment and mitigation measures worldwide. Management has adjusted programs to be in compliance with various government guidelines and continue to provide programs in various areas while closely monitoring revenue and expenses. However, management cannot reasonably estimate the length or severity of this pandemic, or the extent to which the disruption from this pandemic may impact the Organization's future operations and financial state.
