OUR MISSION

“Our mission is to empower young minds in rural, underserved communities by offering specialized workshops that combine the realms of STEM and art.”

By providing access to innovative learning opportunities, we strive to bridge educational gaps and inspire a new generation of thinkers and creators in underserved areas.

We also emphasize the use of natural materials and recycled items, promoting environmental consciousness and sustainable practices.

Saiasi Foundation

STEAM By Having FUN!

OUR VISION

“Our vision is to facilitate the creation of art and technological projects not only within our facility but also across our county and state. This includes organizing outdoor expeditions for photography, use of UAS’s, and collecting natural objects.”

Our gallery space exhibits the works created and photographed, providing a distinctive physical environment for everyone in Choctaw County to explore and enjoy, all free of charge.

LATEST RECOMENDATIONS

Choctaw County Public Library
124 North Academy Avenue
Butler, Alabama 36904

To Whom it May Concern:

This letter is in regards to Isaias Alezones and the work he is doing for the communities in this area. He has been approved to work on the following projects in Gilbertown: murals for the Gilbertown Park, restoring the historical train caboose, and updating the Choctaw County historical museum.

He works with Gilbertown City Council, Choctaw County Historical Society, Choctaw County Chamber of Commerce, and the Choctaw County Public Library to better improve the county. The following examples are what he is bringing to the county: technology workshops including laser and 3D printing, drone workshops including drone flying and photography with photography vehicles on land and water.

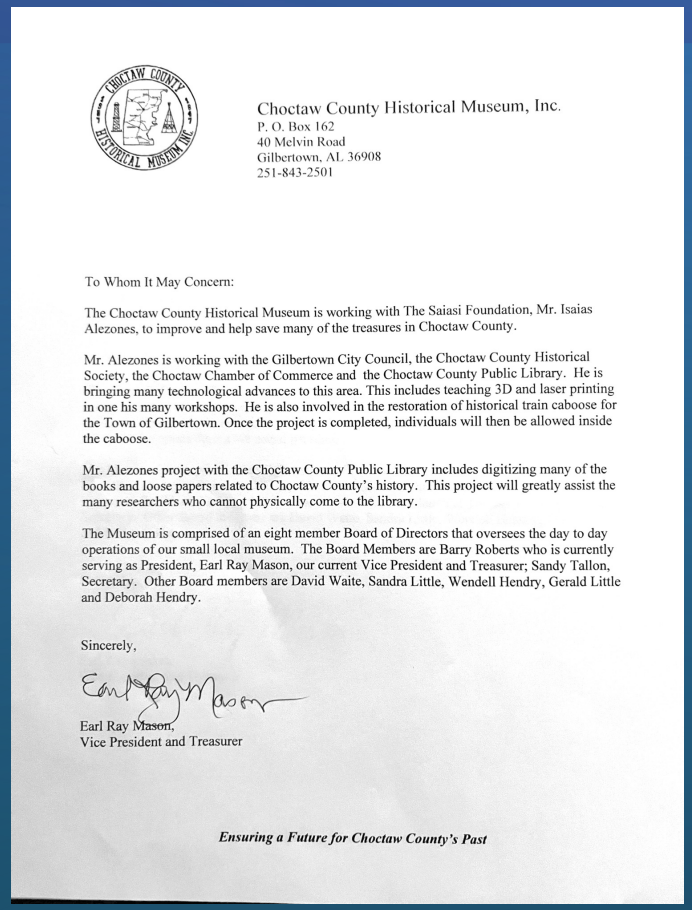

He started 365 Productions, Inc., and Saiasi Foundation. One of the purposes of 365 Productions is to film the restorations. The video will be provided to Saiasi Foundation for Choctaw County's purposes.

For Choctaw County Public Library, he hopes to help begin with the digitization of the historical documents within the archive. This project will help those who are researching family genealogy, the history of Choctaw and surrounding counties and also help the library better serve the community.

Thank you for your consideration of Isaias Alezones. I look forward to hearing the outcome.

Sincerely,
Belinda Brown

To Whom It May Concern:

The Choctaw County Historical Museum is working with The Saiasi Foundation, Mr. Isaias Alezones, to improve and help save many of the treasures in Choctaw County.

Mr. Alezones is working with the Gilbertown City Council, the Choctaw County Historical Society, the Choctaw Chamber of Commerce and the Choctaw County Public Library. He is bringing many technological advances to this area. This includes teaching 3D and laser printing in one his many workshops. He is also involved in the restoration of historical train caboose for the Town of Gilbertown. Once the project is completed, individuals will then be allowed inside the caboose.

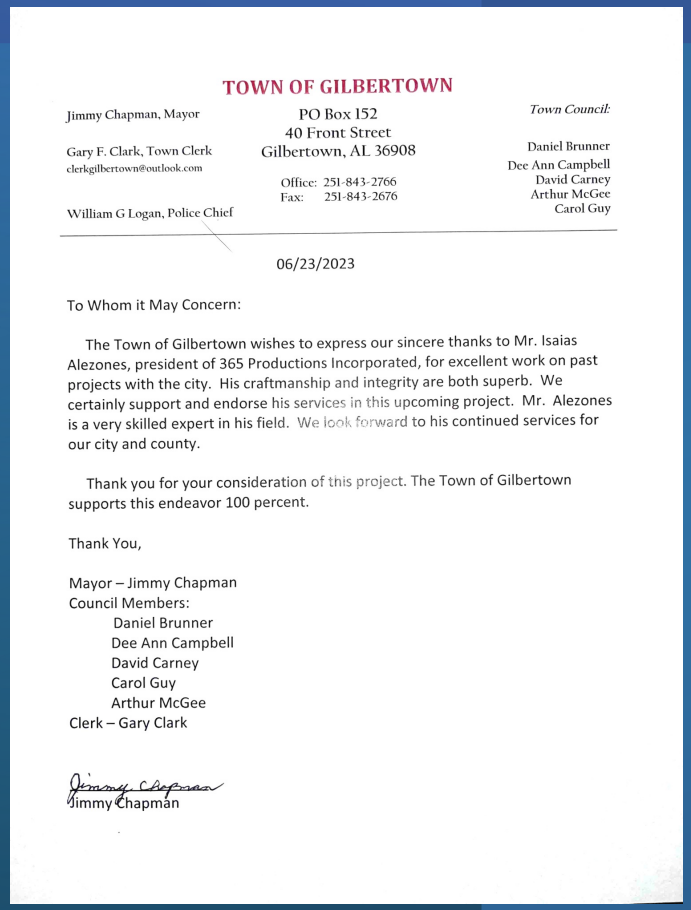

Mr. Alezones project with the Choctaw County Public Library includes digitizing many of the books and loose papers related to Choctaw County's history. This project will greatly assist the many researchers who cannot physically come to the library.

The Museum is comprised of an eight member Board of Directors that oversees the day to day operations of our small local museum. The Board Members are Barry Roberts who is currently serving as President, Earl Ray Mason, our current Vice President and Treasurer; Sandy Tallon, Secretary. Other Board members are David Waite, Sandra Little, Wendell Hendry, Gerald Little and Deborah Hendry.

Sincerely,

Earl Ray Mason,
Vice President and Treasurer

To Whom it May Concern:

The Town of Gilbertown wishes to express our sincere thanks to Mr. Isaias Alezones, president of 365 Productions Incorporated, for excellent work on past projects with the city. His craftmanship and integrity are both superb. We certainly support and endorse his services in this upcoming project. Mr. Alezones is a very skilled expert in his field. We look forward to his continued services for our city and county.

Thank you for your consideration of this project. The Town of Gilbertown supports this endeavor 100 percent.

Thank You,

Mayor – Jimmy Chapman

LATEST RECOMMENDATIONS (Continuation)

July 24, 2023

RE: Recommendation Letter Isaias Alezones/Saiasi Foundation

To whom it may concern:

Please accept this letter of recommendation for Isaias Alezones.

As a retired bank chief financial officer and currently a SCORE volunteer mentor, I have been working with Isaias since May 2022 to assist in the preparation of business plans and organizational structures for a nonprofit organization focused on STEM education. During that period, I have been truly impressed with the artistic talent, engineering knowledge, community commitment and exceptional work ethic Isaias exhibits on a continuous basis. Quickly grasps new business concepts and has a true zeal for new learning. Well-developed interpersonal and communication skills, and an unwavering mission focus, allows him to quickly engage community leaders in project visions and support.

Hopefully this letter will be useful as part of any due diligence activities assessing funding requests.

Sincerely,

Robert Rout

Score Volunteer Mentor

COASTAL ALABAMA COMMUNITY COLLEGE

Coastal Alabama Community College
Office of the Project Specialist for Upward Bound
251 College St
Gilbertown, AL 36908

January 10, 2024

To Whom it May Concern,

My name is Dr. Brandi Clark and I am the Project Specialist for Upward Bound on the Gilbertown Campus of Coastal Alabama Community College. I was contacted by Isaias Alezones of the Saiasi Foundation late in 2023 about the possibility of having a Drone Model workshop for children and teenagers. We set the date for January 6, 2024 and began preparations for the workshop.

The drone model kits donated by the Academy of Model Aeronautics and the Federal Aviation Administration to Mr. Alezones were priceless to the students. Our students were very interested in learning about them and how to build them, and they are looking forward to a possible future demonstration.

This was an exciting opportunity for our students, being that we are from a rural area with not a lot of technological enrichment. Our Upward Bound participants thrive with the type of hands-on experience that this workshop provided.

The Upward Bound Gilbertown Project is very grateful for the opportunity afforded to our participants through these drone building kits.

Sincerely,
Dr. Brandi Clark
Upward Bound Project Specialist, Gilbertown Campus
