

SMASH THE SLUMLORDS

Aplasta los Proprietarios Negligentes

“Smash the Slumlords” (STS) is a campaign to defeat the slumlords, end gentrification, shelter the LGBTQ homeless youth and develop Miami for the people, by the people. Because the revolution will not be funded, STS has created two organizations with complementary missions and structures to execute the campaign. They are detailed below.

SMASH

STRUGGLE FOR MIAMI'S AFFORDABLE AND SUSTAINABLE HOUSING

WORLDS GAME EVENTS

LEGAL NAME:

Struggle for Miami's Affordable and Sustainable Housing, Inc.

CORPORATE STRUCTURE:

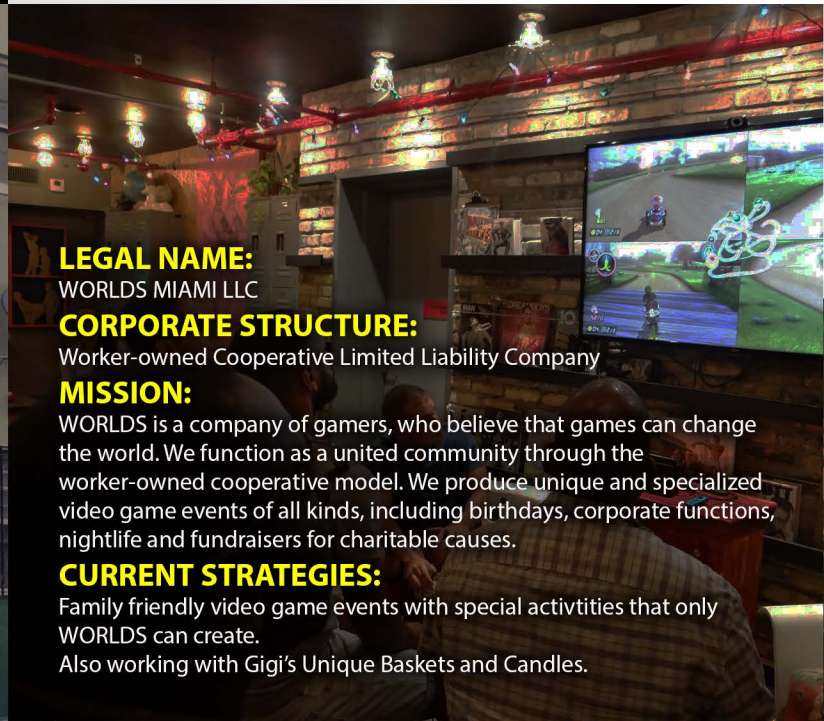

501 (c) 3 Tax-Exempt Non-profit Organization

MISSION:

SMASH's Mission is the creation of a Community Land Trust that will adequately address the needs of inner-city Miami residents affected by the symptoms of gentrification (slumlords, rising rents, lack of community control), and that is shaped, developed and implemented by those same residents.

CURRENT STRATEGIES:

Expedited Housing Project
LGBTQ Youth Transitional Housing Facility
Liberty City Committee on Slum and Gentrification

LEGAL NAME:

WORLDS MIAMI LLC

CORPORATE STRUCTURE:

Worker-owned Cooperative Limited Liability Company

MISSION:

WORLDS is a company of gamers, who believe that games can change the world. We function as a united community through the worker-owned cooperative model. We produce unique and specialized video game events of all kinds, including birthdays, corporate functions, nightlife and fundraisers for charitable causes.

CURRENT STRATEGIES:

Family friendly video game events with special activities that only WORLDS can create.
Also working with Gigi's Unique Baskets and Candles.

TWO ORGANIZATIONS, ONE VISION

This campaign believes that in order to end the slumlords, we Miamians must begin to build our own homes on our own land and create our own wealth in order to keep it. SMASH builds the homes and organizes the community to own the land. WORLDS then brings the fun to the community, bringing together the young and the old, the rich and the poor, to play and experience a world without rules or limits.

This is a campaign that dares to develop a friendship between the things we do for fun and the things we do to live. To express community through organizing, equitable development and video games.
