

Safety for women exploited through substance use disorder and human trafficking

Our Mission: We provide holistic care for female victims of sexual exploitation and trafficking due to substance use coercion.

Our Vision: We cultivate the purposes God has for His daughters by providing a safe to heal in love, grow through accountability, and blossom with grace.

Our Values: *Pray – Love – Educate – Establish a Culture of Excellence – Plant Seeds of Hope – Cultivate the Fruit of the Spirit*

Our Methods:

Prevent (Advocacy)
 changing mindsets about human trafficking victims

- Prevention starts with educating our community and raising awareness about human trafficking. Our trainings teach the basic inner-workings of the industry and the steps they can take to prevent another human trafficking victim.

Rescue (Outreach)
 developing relationships and enlightening an alternative future

- Our Community Outreach is designed to mobilize communities to provide relief for women who are living a life of addiction and desperation. We provide Holistic-Care Kits, Love, Education, and Housing as tools to plant seeds of hope for our starving flowers as they take the first-steps to a new life.

Restore (Housing)
 providing women with the safety and security they need to thrive

- Our long-term recovery home bridges the gap between incarceration, drug and alcohol treatment facilities and/or homelessness. Women recover and reintegrate into society, through prayer, counseling, life skills, 12-Step Groups, Intensive Outpatient Programming, in-home meetings and more.

Our Current (2024) Strategies:

Enhance Board Effectiveness and Governance	Clarify roles * Develop recruitment strategy * Increase communications
Optimize Fundraising and Financial Management	Diversify revenue streams * Cultivate relationships * Implement robust fiscal practices
Enhance Program Impact and Effectiveness	Evaluate regularly * Expand support services * Strengthen collaborations
Expand Community Engagement and Awareness	Strategize communications * Engage stakeholders * Foster continuous learning
Ensure Organizational Sustainability and Growth	Build capacity * Invest in infrastructure * Execute strategic plan
