INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Oregon HEAT
Tualatin, Oregon

We have audited the accompanying statements of financial position of Oregon HEAT (a nonprofit organization) as of June 30, 2012 and 2011, and the related statements of activities, functional expenses and cash flows for the years then ended. These financial statements are the responsibility of the Organization's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Oregon HEAT as of June 30, 2012 and 2011 and the changes in its net assets and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Notes to the Financial Statements

For the years ended June 30, 2012 and 2011

(1) Summary of Significant Accounting Policies

Nature of Activities

Oregon HEAT was incorporated in 1989 as a nonprofit organization. Oregon HEAT is a DBA of Oregon Energy Services, Inc. Its purpose is to provide and coordinate resources to create a statewide fuel fund to help low income Oregonians meet their energy needs and achieve energy self-reliance through energy education and advocacy. Funding is provided by individual and corporate contributions and grants.

As an independent nonprofit organization, Oregon HEAT is known for implementing innovative pilot projects. Many of these have been incubators for later-developed State and utility programs. Its purpose is to find improved ways to enable low-income families to better afford their home heating and electricity needs. Funding for such projects has come from grants and donations from business and individuals.

Oregon HEAT uses a second-year funding policy. Under that policy, Oregon HEAT generally raises funds in one year and allocates them to agencies for energy assistance at the beginning of the following year. This assures agencies that all allocated funds will be available and allows them to plan their expenditures over the season.

Previously, Oregon HEAT built up a moderate balance from unrestricted donations. As per the existing policy, the balance has been spent down and will continue to be spent down annually.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.
