Part II Activities and Operational Information

Provide a detailed narrative description of all the activities of the organization—past, present, and planned. Do not merely refer to or repeat the language in your organizational document. Describe each activity separately in the order of importance. Each description should include, as a minimum, the following: (a) a detailed description of the activity including its purpose; (b) when the activity was or will be initiated; and (c) where and by whom the activity will be conducted.

The primary activity will be to provide financial assistance to qualified low-income families from donated funds to cover household energy costs.

The organization will also provide counseling on money management, wise and efficient use of energy, and weatherization.

The program will begin in the fall of 1990 when tax exempt status has been reviewed. Employees will be hired to manage the program. Various aspects of the program will be subcontracted to other not for profit organizations that provide energy assistance to low-income families.

2 What are or will be the organization's sources of financial support? List in order of size.

Financial support will be in the form of donations.

3 Describe the organization's fundraising program, both actual and planned, and explain to what extent it has been put into effect. (Include details of fundraising activities such as selective mailings, formation of fundraising committees, use of volunteers or professional fundraisers, etc.) Attach representative copies of solicitations for financial support.

Donations will be sought from for profit organizations and individuals through various mailings and volunteer solicitors. The fund raising activities will begin once tax exempt status has been received.
