INDEPENDENT AUDITORS' REPORT

August 16, 2011

Board of Directors Animal Welfare Society, Inc. Kennebunk, Maine

We have audited the accompanying statement of financial position of the Animal Welfare Society, Inc. as of March 31, 2011, and the related statements of activities and cash flows for the year then ended. These financial statements are the responsibility of the Society's management. Our responsibility is to express an opinion on these financial statements based on our audit. The prior year summarized comparative information has been derived from the Society's March 31, 2010 financial statements and, in our report dated August 18, 2010, we expressed an unqualified opinion on those financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Animal Welfare Society, Inc. as of March 31, 2011, and the changes in its net assets and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED MARCH 31, 2011

Note 1 - Summary of Significant Accounting Policies

Nature of Activities - The Animal Welfare Society, Inc. ("Society") is a not-for-profit Maine corporation organized May 31, 1967. The Society exists to provide humane shelter and care to animals temporarily in need of housing, and to further the cause of responsible animal adoption and ownership through education and public awareness. The Society actively promotes kindness, the elimination of cruelty and neglect to all animals, and the lifelong commitment of people to their pets. The Society's principal sources of revenue are donations, fees, investment income and fundraising activities.

Basis of Accounting - The financial statements of the Society have been prepared on the accrual basis of accounting and accordingly reflect all significant receivables, payables and other accruals, if applicable.

Basis of Presentation - Financial statement presentation follows the recommendations of the Financial Accounting Standards Board in its Statement of Financial Accounting Standards, *Financial Statements of Not-for-Profit Organizations*. Under this standard, the Society is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted net assets – Net assets not subject to donor-imposed stipulations.

Temporarily restricted net assets – Net assets subject to donor-imposed stipulations that may or will be met, either by activities of the Society and/or the passage of time.

Permanently restricted net assets – Net assets subject to donor-imposed stipulations that they be maintained permanently by the Society. Generally, the donors of the assets permit the Society to use all or part of the income earned on related investments for general or specific purposes.

Cash - For purposes of the Statement of Cash Flows, the Society considers all highly liquid investments with an initial maturity of three months or less to be cash equivalents.

Donated Assets - Donated marketable securities and other noncash donations are recorded as contributions at their estimated fair values at the date of donation.

Donated Services - Donated services are reflected in the financial statements at the fair value of the services received only if the services (a) create or enhance nonfinancial assets or (b) require specialized skills that are provided by individuals possessing those skills and would typically need to be purchased if not provided by donation.

Accounting Estimates and Assumptions - Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported support revenues and expenses. Actual results could differ from those estimates.

Expense Allocation - The costs of providing various programs and other activities have been summarized on a functional basis in the Statement of Activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Income Tax Status - The Society is exempt from federal and state income taxes under Section 501(c)(3) of the Internal Revenue Code. In addition, the Society qualifies for the charitable contribution deduction under Section 170(b)(1)(A) and has been classified as an organization that is not a private foundation under Section 509(a)(2).

The federal return of organization exempt from income tax of the Society is subject to examination generally for three years after it was filed. The Society does not believe that there are any uncertain tax positions taken in preparation of the return that would impact these financial statements.

Inventory - Inventory is valued at the lower of cost (first-in, first-out) or market and consists of veterinary supplies, cookbooks, apparel and other items held for sale.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED MARCH 31, 2011

Note 1 - Summary of Significant Accounting Policies (continued)

Investments - The Society carries investments in marketable securities with readily determinable fair values and all investments in debt securities at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets in the accompanying statement of activities.

Promises to Give - Unconditional promises to give are recorded as received. Unconditional promises to give due in subsequent years are recorded at their present value, using risk-free interest rates applicable to the years in which the promises are received to discount the amounts. Conditional promises to give are recognized when the conditions on which they depend are substantially met.

Property and Equipment - Purchased land, buildings, furnishings and equipment are carried at cost. Contributed assets are carried at their fair market value at the time of the gift. Major additions are included in the property accounts while maintenance and repairs which do not improve or extend the life of the assets are expensed currently. Depreciation is computed using the straight-line and declining balance methods of depreciation over the assets' estimated lives as follows:

Assets	<u>Life in Years</u>
Buildings	15-30
Land improvements	10
Equipment	5-10

Recognition of Donor-Restricted Contributions - Support that is restricted by the donor is reported as an increase in temporarily or permanently restricted net assets, depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the Statement of Activities as net assets released from restrictions.

Concentration of Credit Risk for Cash Held in Banks and Brokerage Accounts - The Society maintains cash balances at a local bank and in brokerage accounts, and deposits are insured by the Federal Deposit Insurance Corporation or the Securities Investor Protection Corporation. At March 31, 2011, cash held at the local bank totaled \$64,881. The book value was \$60,185. Cash held in brokerage accounts totaled \$42,034. The book value was \$87,565. At March 31, 2011, no cash balances were uninsured.

Comparative Financial Information - The financial statements include certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Society's financial statements for the year ended March 31, 2010, from which the summarized information was derived.

Reclassification – Certain amounts for the year ended March 31, 2010 have been reclassified to confirm with the financial statement presentation for the year ended March 31, 2011.

Note 3 - Investments

The Society elected to report their investments at fair value. The Statement of Financial Accounting Standards, Accounting for Certain Investments Held by Not-for-Profit Organizations, specifies that investments in equity securities with readily determinable fair values should be reported at their fair value.

Investments as of March 31, 2011, are summarized as follows:

	<u>Cost</u>	Fair <u>Value</u>
Corporate stocks and bonds US Government obligations	\$ 1,468,468 <u>170,615</u>	\$ 1,770,711 <u>171,812</u>
Total	\$ <u>1,639,083</u>	\$ 1,942,523

The following schedule summarizes the investment return and its classification in the statement of activities for the year ended March 31, 2011:

	<u>J</u>	<u>Inrestricted</u>
Investment income Net realized and unrealized gains	\$	51,724 <u>165,456</u>
Total investment return	\$	<u>217,180</u>

At March 31, 2011 \$94,299 of the fair value of investments was restricted.

Note 4 - Fair Values of Assets

Effective April 1, 2008, the Society adopted Statement of Financial Accounting Standards, Fair Value Measurements, which provides a framework for measuring fair value under GAAP. This standard defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The standard requires that valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The standard also established a fair value hierarchy, which prioritizes the valuation inputs into three broad levels.

There are three general valuation techniques that may be used to measure fair value, as described below:

- A) Market approach Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. Prices may be indicated by pricing guides, sale transactions, market trades, or other resources;
- B) Cost approach Based on the amount that currently would be required to replace the service capacity of an asset (replacement cost); and
- C) Income approach Uses valuation techniques to convert future amounts to a single present amount based on current market expectations about the future amounts (includes present value techniques, and option-pricing models). Net present value is an income approach where a stream of expected cash flows is discounted at an appropriate market interest rate.

Assets itemized below were measured at fair value during the year ended using the market approach for Level 1 measurements and income approach for Level 2 measurements.

Note 6 - Line of Credit

In December 2010, the Society obtained a \$200,000 revolving line of credit from Kennebunk Savings Bank to help finance its short-term cash flow needs. This line is collateralized by the Society's real property located in York County and any rents on the property. Interest is payable monthly on outstanding balances at an interest rate equal to the annual U.S. Prime Rate as published in the "Wall Street Journal" (which was 3.250% at the time of the agreement). At March 31, 2011, the line's effective rate of interest was 3.250%. There were no borrowings under the line of credit during the year.

Total	\$ <u>415,911</u>

Note 9 - Endowment Funds

In January 2009, the Financial Accounting Standards Board (FASB) issued FASB Staff Position, Endowments of Not-for-Profit Organizations: Net Asset Classification of Funds Subject to an Enacted Version of the Uniform Prudent Management of Institutional Funds Act, and Enhanced Disclosures for All Endowment Funds ("the Staff Position"). The Staff Position provides guidance on the net asset classification of donor-restricted endowment funds for a nonprofit organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA). The Staff Position also requires additional disclosures about an organization's endowment fund (both donor restricted endowment funds and board-designated endowment funds) whether or not the organization is subject to UPMIFA.

The State of Maine enacted UPMIFA in 2009, the provisions of which apply to endowment funds existing on or established after that date. The Society has adopted the Staff Position for the year ended March 31, 2010. The Society's endowment investing policy's objective is to grow the fund over time to support the purposes as defined above. The fund will meet this objective by investing endowment funds in fixed income and equity investments. The Society spends the earnings of the above funds for purposes as deemed necessary by the Society.

As of March 31, 2011, the Society had endowment funds totaling \$1,610,632 consisting of both donor-restricted funds and funds designated by the Board of Directors to function as endowments. As required by generally accepted accounting principles, net assets associated with endowment funds, including funds designated by the Board of Directors to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Board of Directors of the Society has interpreted the State Prudent Management of Institutional Funds Act (SPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Society classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED MARCH 31, 2011

Note 9 - Endowment Funds (continued)

As of March 31, 2011, the Board of Directors of the Society had designated \$1,385,644 of unrestricted net assets as a general endowment fund to support the mission of the Society. Since that amount resulted from an internal designation and is not donor-restricted, it is classified and reported as unrestricted net assets.

The Society's investment spending policy consists of distributing monthly, the previous month's net investment income including interest, dividends and capital gain distributions from investments. The distributions do not account for any change in the fair value of the endowment fund. Accordingly, over the long-term, the Society expects the current policy to allow its endowment funds to grow at an average of 3-4% annually. This is consistent with the Society's objective to attempt to provide a predictable stream of funding from its endowment funds while also maintaining the purchasing power of the endowment assets as well as to provide additional real growth through investment return.

Note 10 - Charitable Trusts

The Society is beneficiary of the following three charitable trusts at March 31, 2011:

Unrestricted:

The Society is beneficiary of a charitable trust which is administered by a related trustee. Both income and principal are available for the Society's use. The trust owned assets with a market value of \$133,400 as of March 31, 2011. There were no distributions from the trust during fiscal 2011.

Temporarily restricted:

The Society is beneficiary of 33.33% of a charitable lead unitrust held and administered by outside trustees. The Society will receive annual distributions based upon the market value of assets in the trust until its termination on March 31, 2013. The present value of expected future distributions is \$16,321 as of March 31, 2011. Distributions from the unitrust totaled \$8,259 during fiscal year 2011.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED MARCH 31, 2011

Note 10 - Charitable Trusts (continued)

Permanently restricted:

The Society is beneficiary of 8.33% of a charitable foundation held and administered by outside trustees. The Society will receive annual distributions based upon the income of the trust in perpetuity. The trust owned assets for the benefit of the Society with a market value of \$190,922 as of March 31, 2011. Distributions from the trust totaled \$6,562 during fiscal year 2011.

Note 11 - Donated Services

Donated services included in the financial statements consist of accounting and other services with a value of \$6,955. In addition, a substantial number of volunteers have donated significant amounts of their time in the Society's operations, program services and fundraising activities which is not recognized in the financial statements because it does not meet the criteria described in Note 1.

Note 12 - Retirement Plan

The Society has established a defined contribution plan covering all employees with at least \$5,000 in annual compensation who agree to make contributions to the plan. The Society matches participants' contributions to the plan up to 3% of the individual participant's compensation. Total expense for the year ended March 31, 2011, was \$14,620.

Note 13 - Subsequent Events

Subsequent events have been evaluated through August 16, 2011, which is the date the financial statements were available to be issued. There were no material events at August 16, 2011 that would require disclosure in the financial statements.
