Part V, line 4:

Generally, the Foundation manages its funds using a total return concept, which emphasizes total investment return, including interest and dividends and realized and unrealized gains and losses. Annually, the Foundation's board of directors determines the level of grant making based on two factors that serve to stabilize annual spending levels and preserve the real value of the endowment over time. In fiscal years 2020 and 2019, those factors are 70% of the prior year's spending, adjusted for inflation, plus 30% of a spending rate at 5.5% and 5.75% for 2020 and 2019 of the estimated fair value of its discretionary endowment and 5.0% for 2020 and 2019 of the estimated fair value of its designated endowment. The discretionary endowment is made up of funds with no restrictions and

funds with field of interest restrictions placed on the way income may be used. The designated endowment is composed of funds created for specifically named agencies or projects.

Part X, Line 2:

The Foundation has not taken any tax positions which would have a material effect, individually or in the aggregrate, upon the Foundation's consolidated financial statements. The Foundation believes it has not taken any significant uncertain tax positions or any tax positions that would jeopardize the Foundation's tax-exempt status.

Part V Line 1e - Other expenditures

Boston Foundation, Inc. has adopted FASB ASU 2016-14, presentation of the financial statements for not-for-profit entities. As a result, the June 30, 2020 audited financial statements classify net assets as either net assets without donor restrictions, or net assets with donor restrictions.

Schedule M, Line 32b:

When the Boston Foundation, Inc. is notified that a donor will be making a contribution of a publicly traded security, instructions are provided to the donor to deliver the shares to the Boston Foundation's brokerage account. The Foundation typically uses one brokerage firm (Stifel) for publicly traded security transactions. The Foundation also holds accounts at a small number of other brokerage firms in order to facilitate efficient transfers for donors with accounts at those firms. When securities are received, the shares are sold as soon as possible, typically upon receipt or the next business day. Upon settlement, proceeds are delivered to the Boston Foundation. The Foundation may receive contributions of closely held or restricted securities that are not sold upon receipt, but are sold either upon the lifting of the restriction or when a liquidation event occurs. Occasionally the Foundation receives non-cash contributions such as limited partnership interests, real estate, or other assets which may require the Boston Foundation to engage a third party to handle the sale. When the Foundation is notified of such gifts, the asset is reviewed to determine the appropriate sales agent. The Foundation is not involved in the valuation of non-cash contributions, except for marketable securities. Donors are responsible for obtaining an independent third-party valuation.
