#### Form 990, Part III, Line 1 - Organization Mission

Center for Resource Solutions (CRS) is a nonprofit organization established in 1997 that promotes policy and market solutions to advance sustainable energy. Among its primary activities, CRS runs several certification programs that ensure environmental impact, quality and integrity in clean energy and carbon offset markets, provides expert assistance addressing clean energy and carbon reduction to organizations and policymakers globally, hosts the annual Renewable Energy Markets Conference, and develops other clean-energy focused educational programs, materials and events. It is based in San Francisco, CA.

#### Form 990, Part III, Line 4a - Program Service Accomplishments

Green-e Certification Programs

The Green-e programs help individuals and organizations increase their use of renewable energy and reduce carbon emissions by providing not just consumer protection, but also advocacy, education, and market oversight. Together, the three Green-e programs — Green-e Climate, Green-e Energy, and Green-e Marketplace — provide a framework for the private sector to increase its use of renewable energy by increasing the integrity and transparency of existing clean energy markets that operate largely independent of state and federal oversight. The oldest of these programs, the Green-e Energy program, certifies the majority of the voluntary renewable energy market in the U.S. and over 90% of renewable energy certificate (REC) transactions. The programs together certify a wide range of options to support consumers and businesses in reducing their environmental impacts, and help drive the transition to a clean energy economy.

#### Form 990, Part III, Line 4a - Program Service Accomplishments

Green-e Climate certifies carbon offsets sold in the retail market to businesses and individuals globally looking to reduce the impact of their non-electricity energy use.

Green-e Energy certifies the full range of renewable energy purchasing options, including utility green-power programs, REC products, green electricity programs offered by energy service providers in states and provinces that offer consumer choice, community choice aggregation programs, shared solar, and direct purchasing/PPAs. The program is also in the process of expanding to South America and Southeast Asia.

Green-e Marketplace works with organizations and businesses of all sizes to help them reduce the impact of their energy use and promote their environmental actions to their stakeholders, customers and employees. The Green-e logo is used by a wide variety of companies and brands to communicate renewable energy actions, including on products as varied as diapers and wine that are manufactured with 100% renewable energy.

#### Form 990, Part III, Line 4b - Program Service Accomplishments

Policy and Green Power Market Development

CRS continually assists lawmakers, regulators, and advocates in developing policy solutions that advance clean energy and reduce carbon emissions. It works at state, national, and international levels to ensure that policy decisions are informed with an understanding of renewable energy markets, and promote the continuing growth of clean-energy solutions.

#### Form 990, Part III, Line 4b - Program Service Accomplishments

In 2018 CRS was active in dozens of public processes and interactions with other sustainability organizations and government agencies to promote the use of sustainable energy, including CRS's work to support the use of renewable energy in reducing greenhouse gas impacts.

The organization also published a number of reports and white papers that address the voluntary green power market, best practices for RECs and renewable energy claims, solar power consumer protection, and other best practices and policy recommendations to support the continued development of robust renewable energy markets.

#### Form 990, Part III, Line 4c - Program Service Accomplishments

2018 Renewable Energy Markets Conference and Green Power Leadership Awards
This year's Renewable Energy Markets (REM) conference served as an important forum
for the years most-discussed topics, from community renewables and policy
developments to advances in development and financing tools for corporate renewable
energy procurement. Over 400 attendees attended the 23rd REM conference in Houston,
Texas, including renewable energy generators, marketers, utility representatives,
purchasers, policymakers, and regional stakeholders.

CRS and the U.S. EPA presented the annual Green Power Leadership Awards at the REM conference to recognize organizations and individuals playing a leadership role in green power market development, purchasing, and supply. The awards recognize outstanding commitments and achievements in the green power marketplace for both individuals and organizations.

#### Form 990, Part VI, Line 11b - Form 990 Review Process

The accountant reviews the 990 making sure it matches to the audited financial statements. It is then reviewed by the Fiduciary Committee of the Board and the Executive Director. Final version is given to every Board member prior to filing.
