Re: 2023 Financial Reporting Clarification for Impactful Fund

We are writing to clarify an apparent discrepancy reflected in the 2023 financials on our [Impactful Fund Candid profile](#).

Impactful Fund has filed both its 2022 and 2023 IRS Form 990s. We received multi-year funding in 2022 that supports programming carried out over two years. As a result, revenue and expenses span multiple fiscal years, which may lead to timing mismatches in annual reporting. This can appear as a financial imbalance if viewed in isolation.

We are committed to transparency and strong fiscal management, and we continue to ensure all reporting is current and accurate. Please feel free to contact us at scilla@impactfulfund.org with any questions.

Warm regards,
